

BlockBUZZters

Year 3

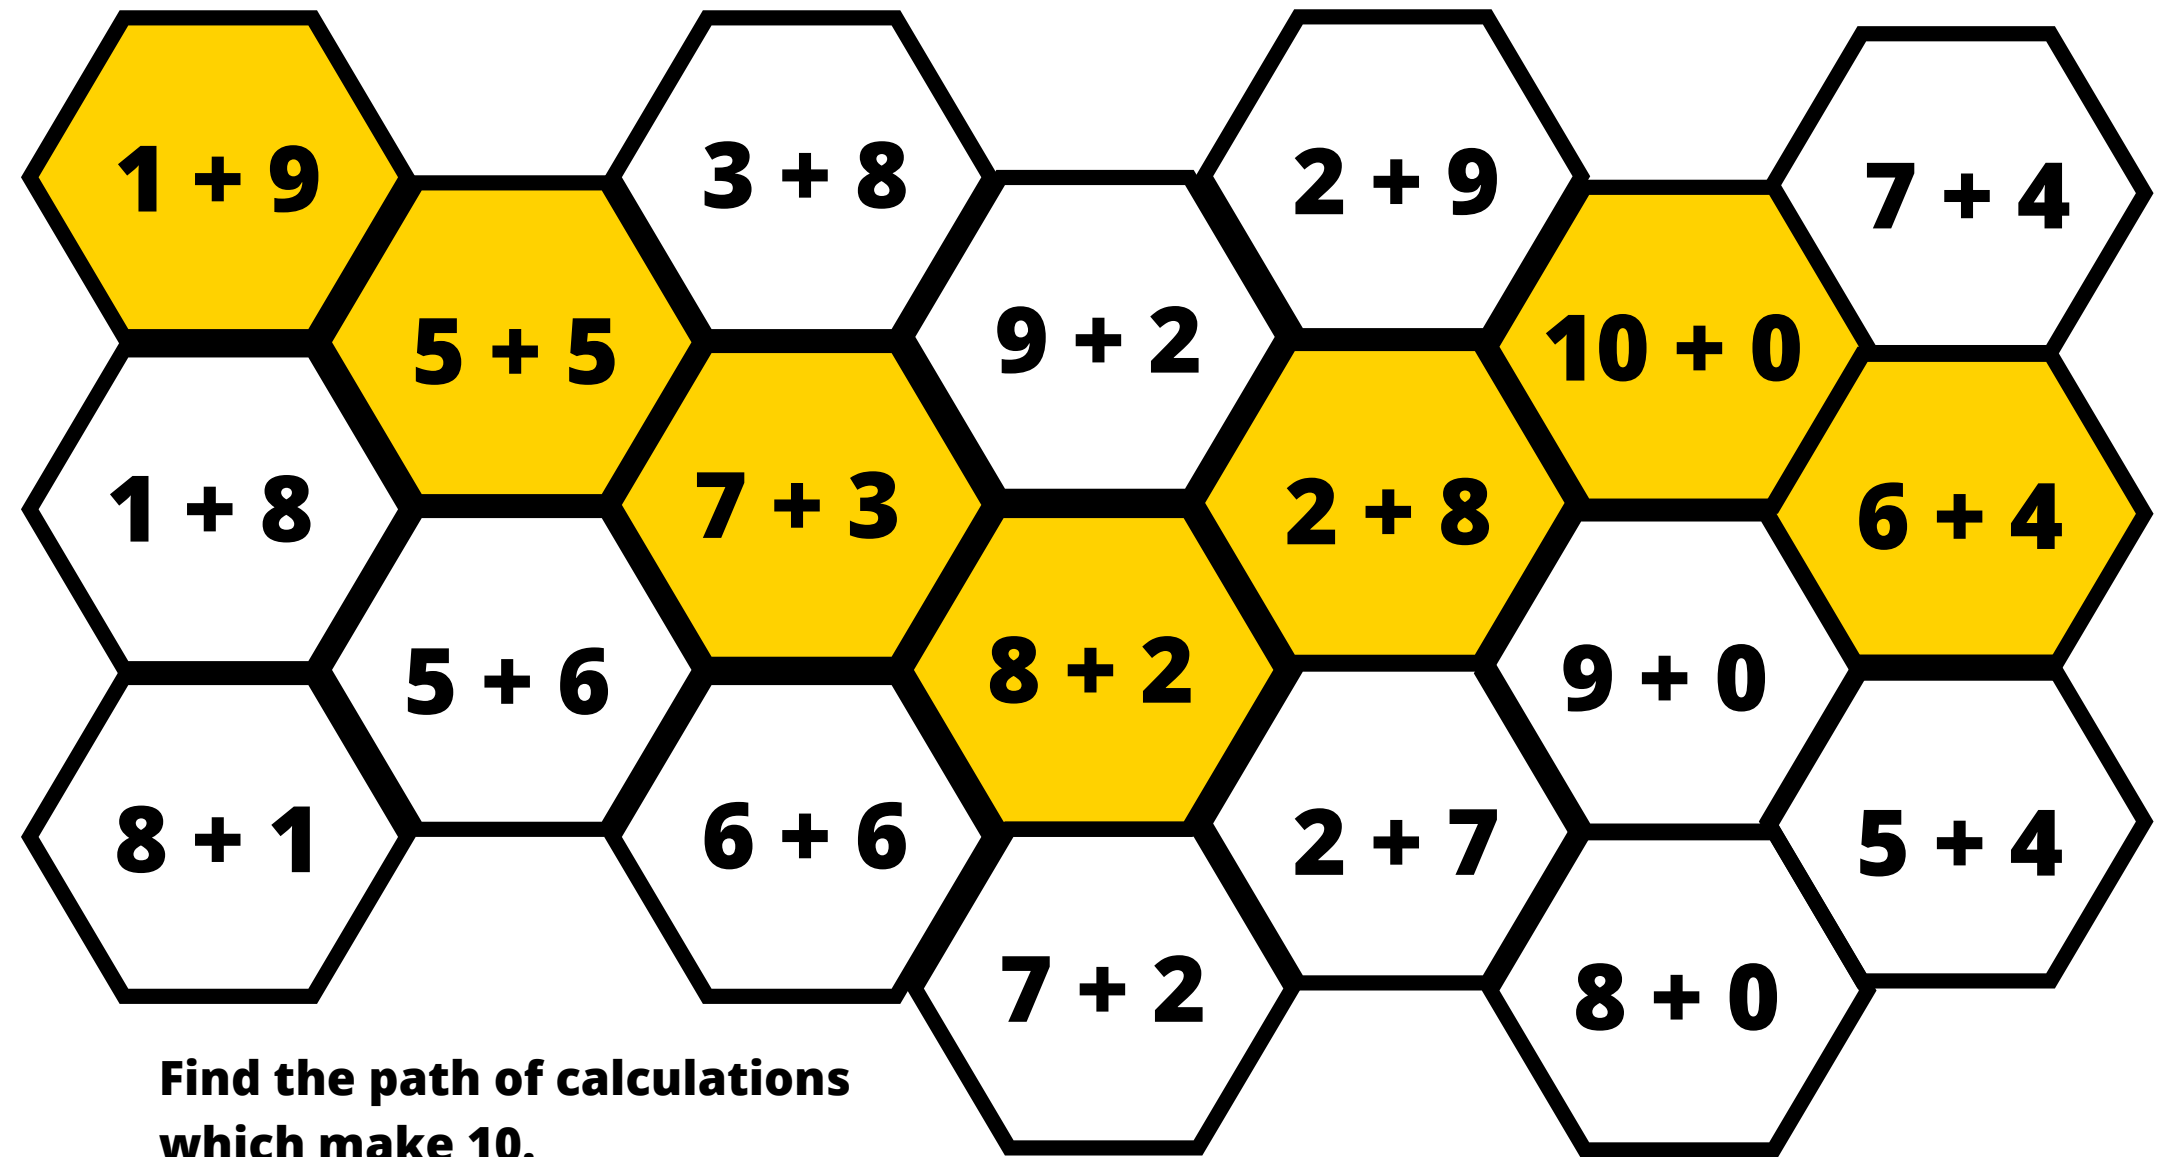

How to play.

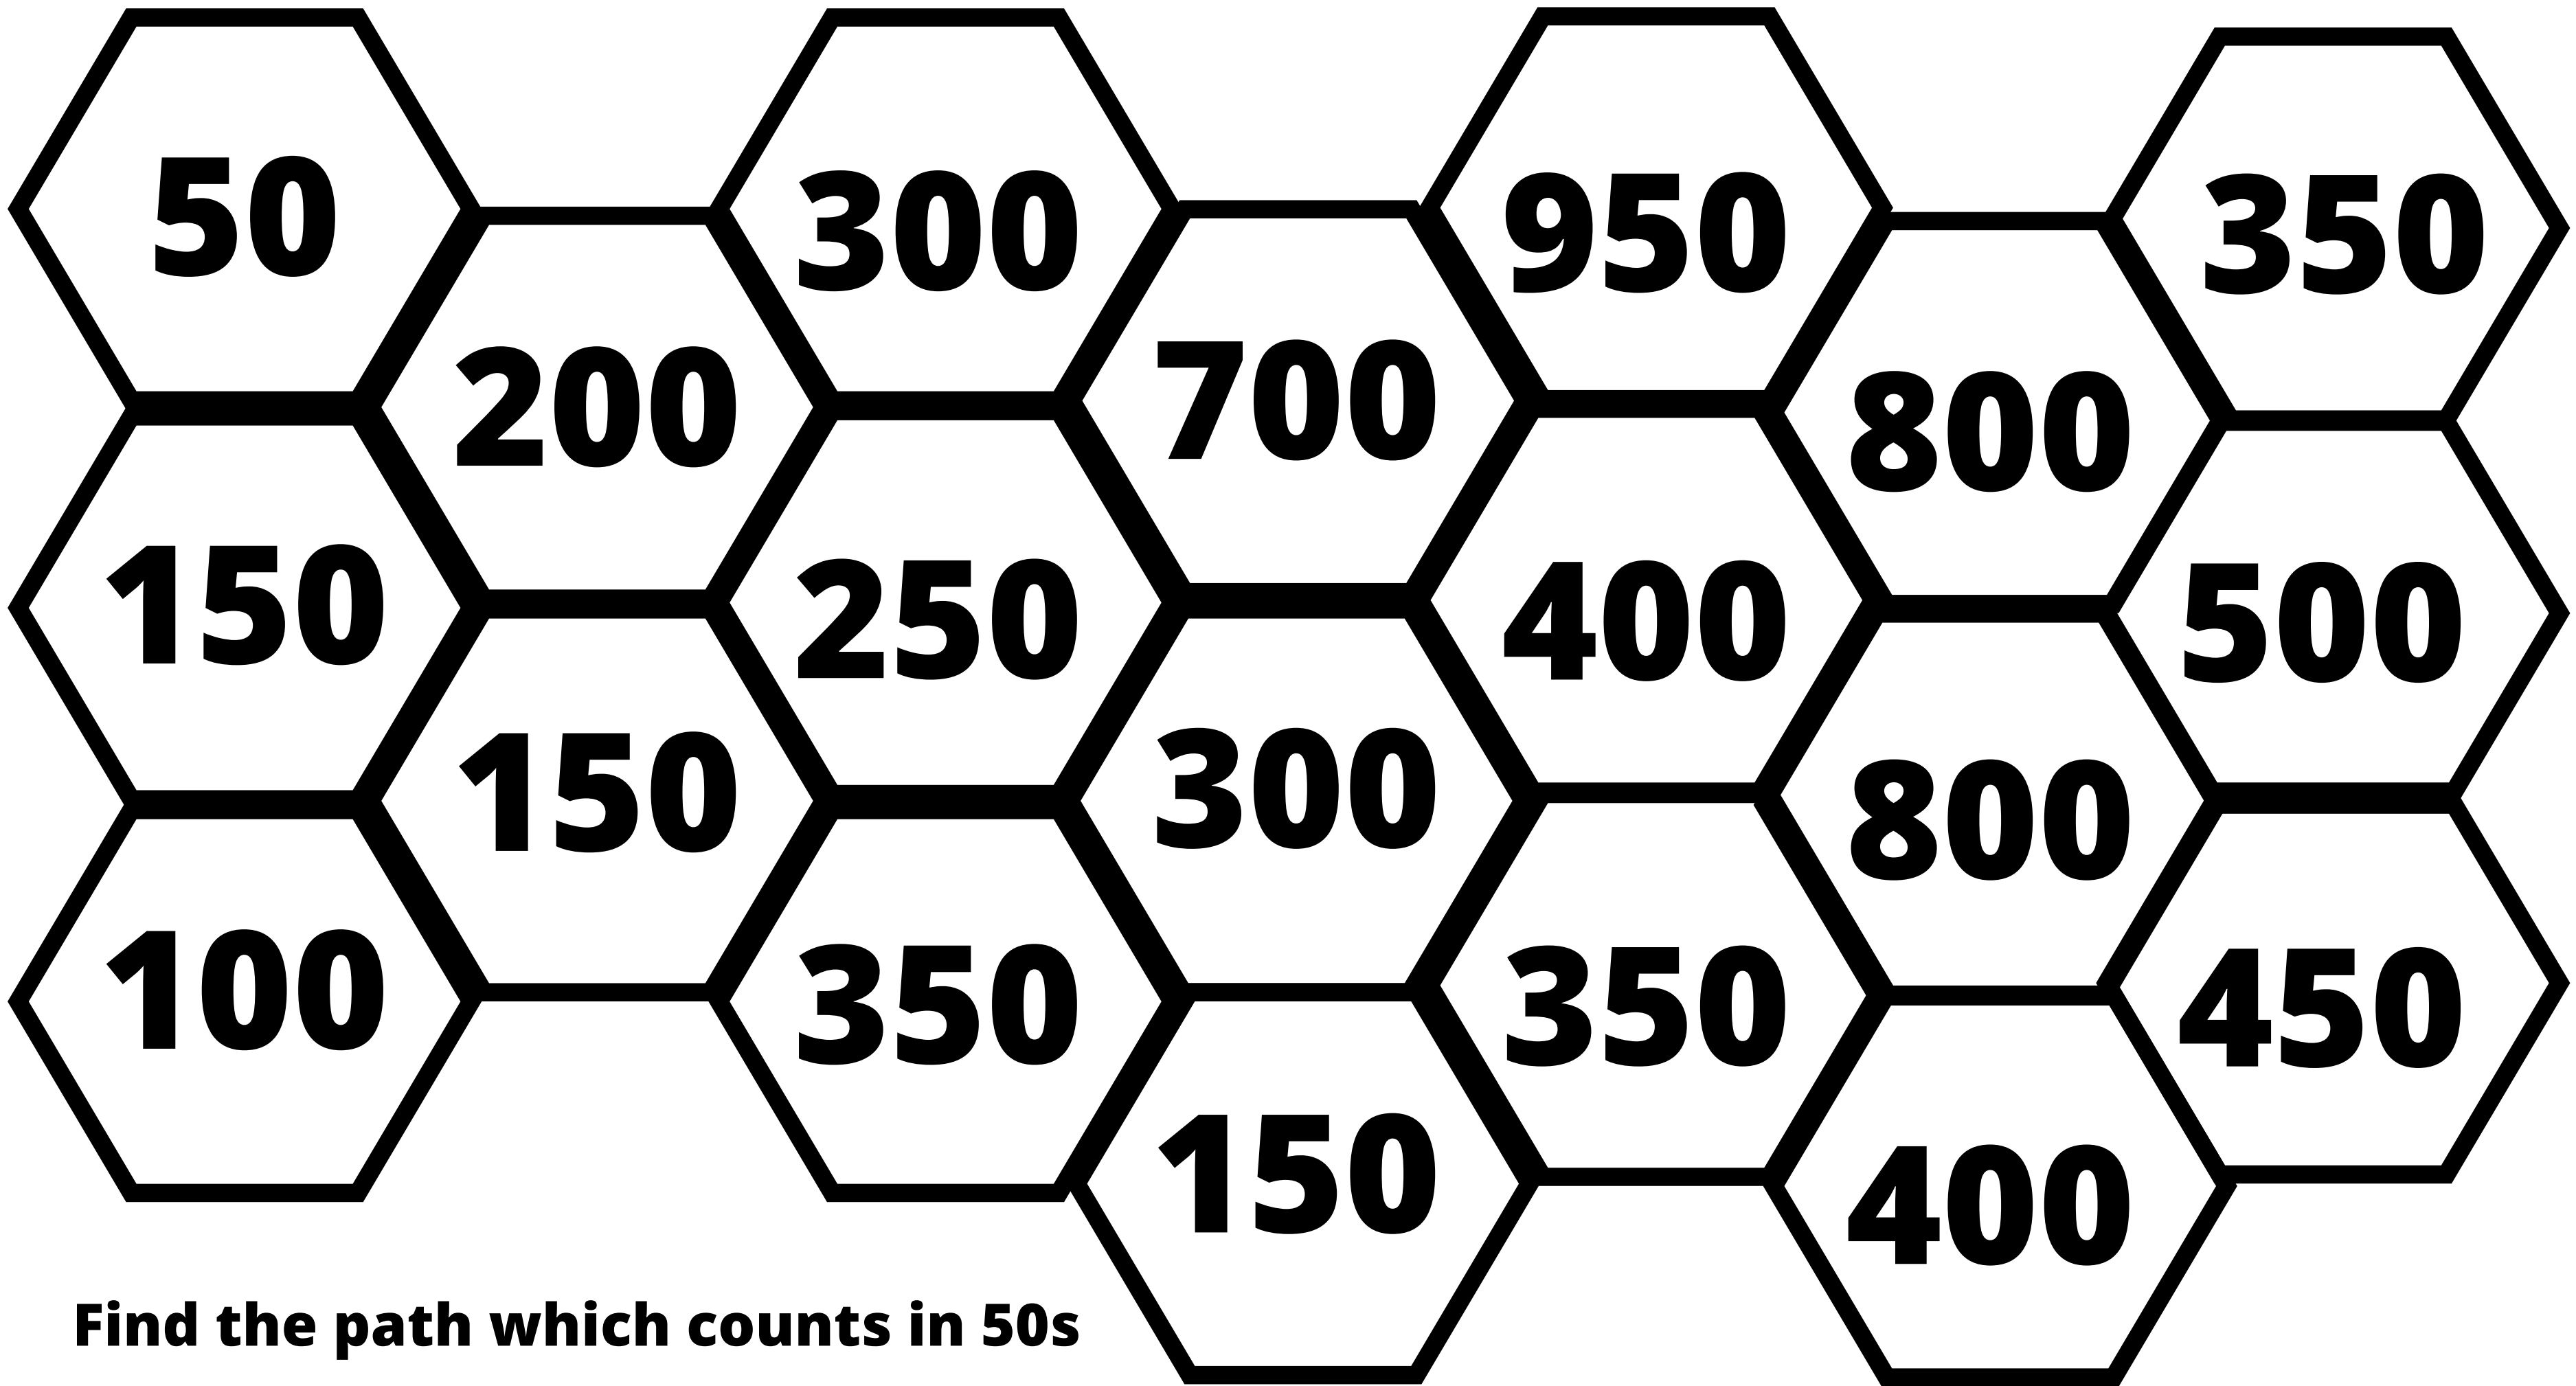

Display or print off the resource.

- Look at the focus of the task at the bottom left of the page (or obscure it for extra challenge, asking children to identify what the focus may be).
- Find an unbreakable path, from left to right, to complete the game.
- Colour in the path.

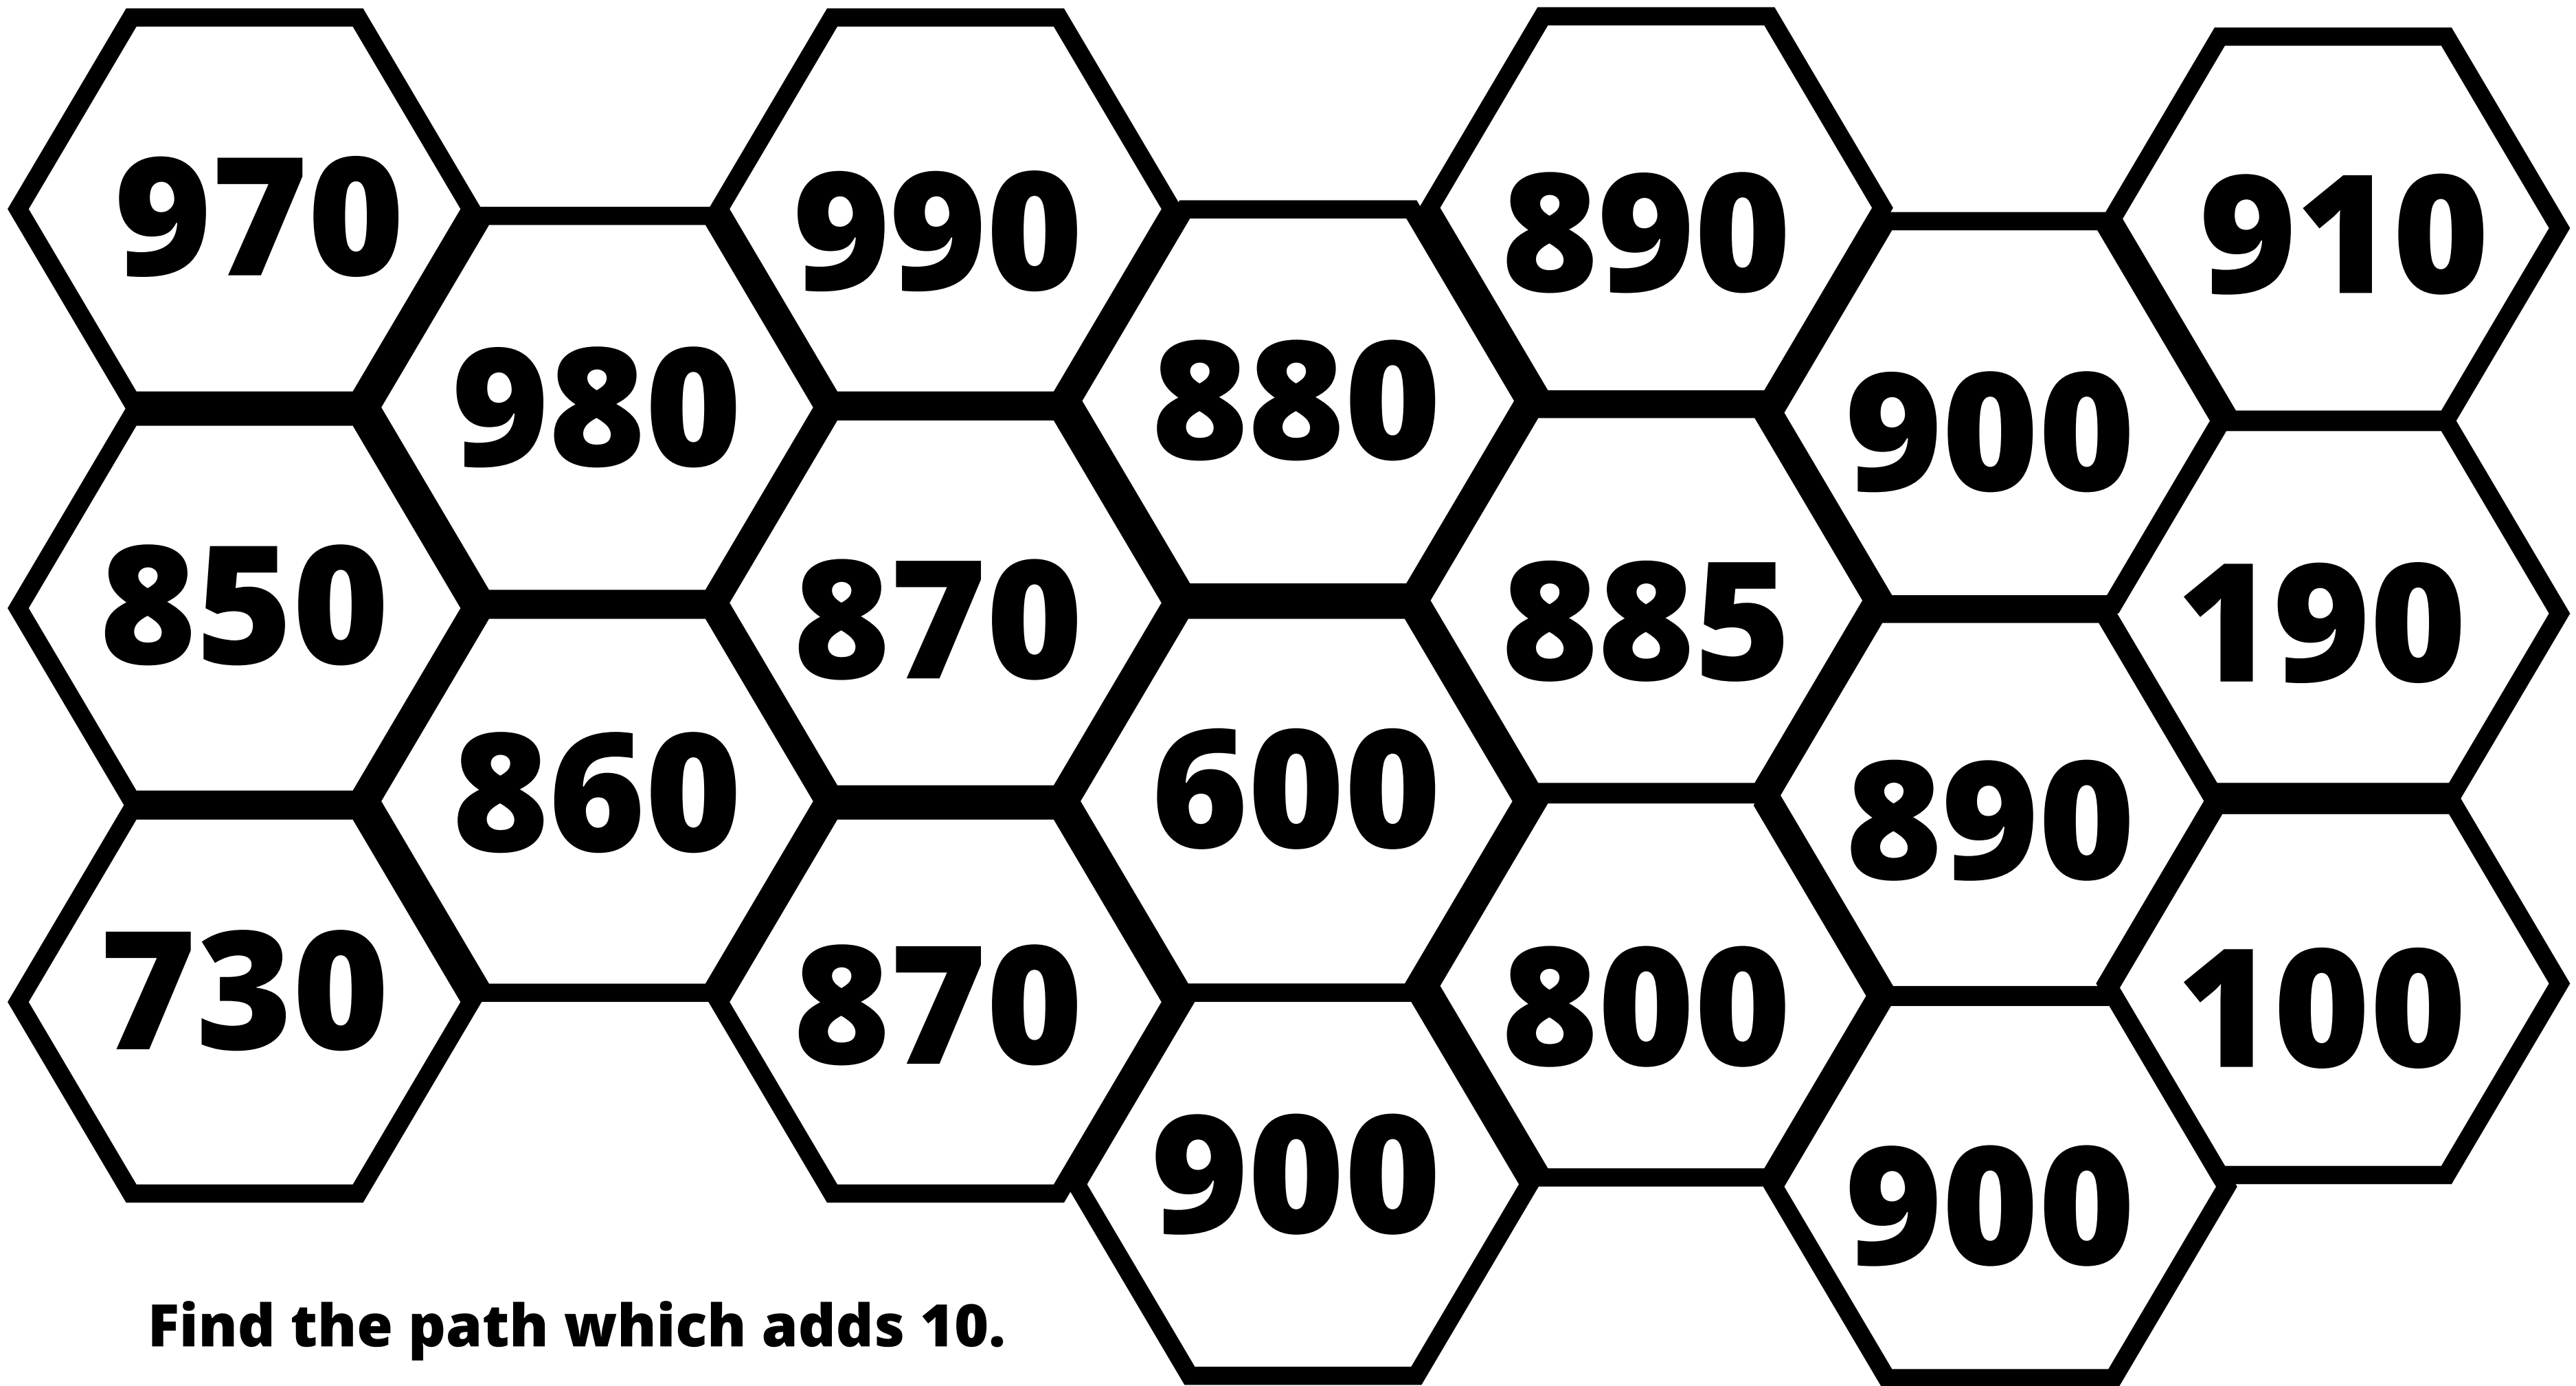

Modifications.

- Time/race children.
- Cut it out and reassemble.
- Hide the focus and allow children to try and investigate what the focus of the task is.
- Stick to another (blank) sheet and extend the grid.
- Play in pairs and create colourful paths.

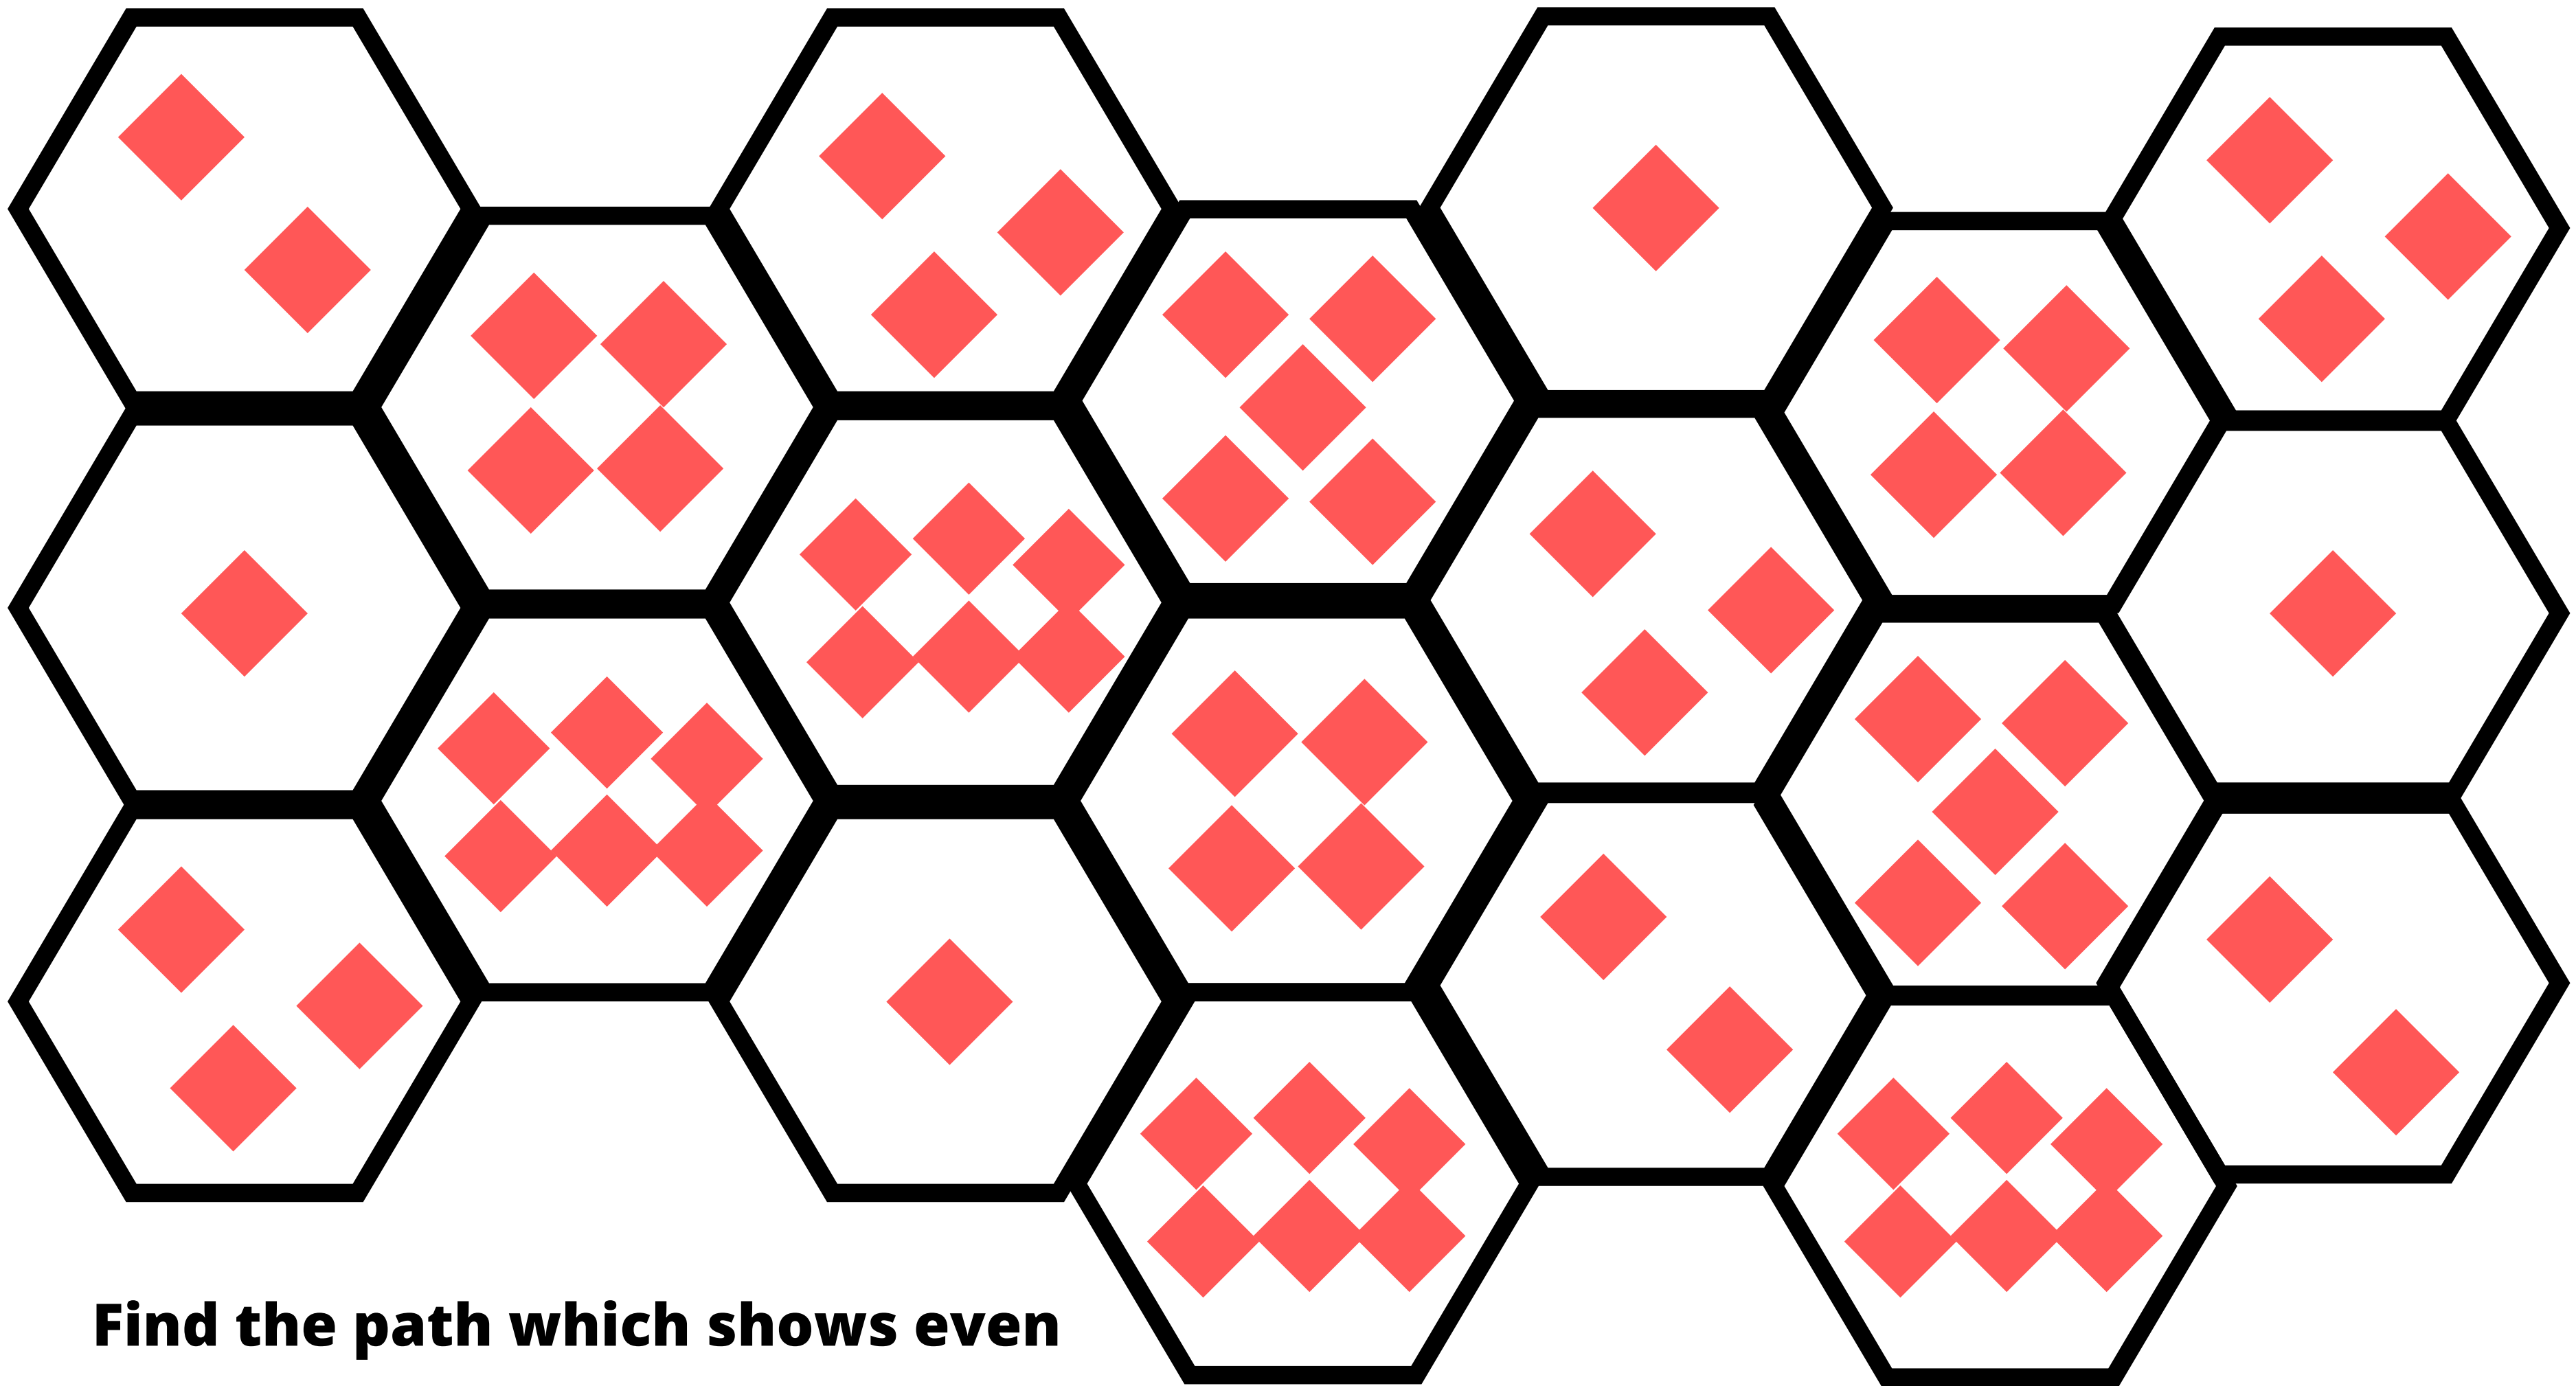

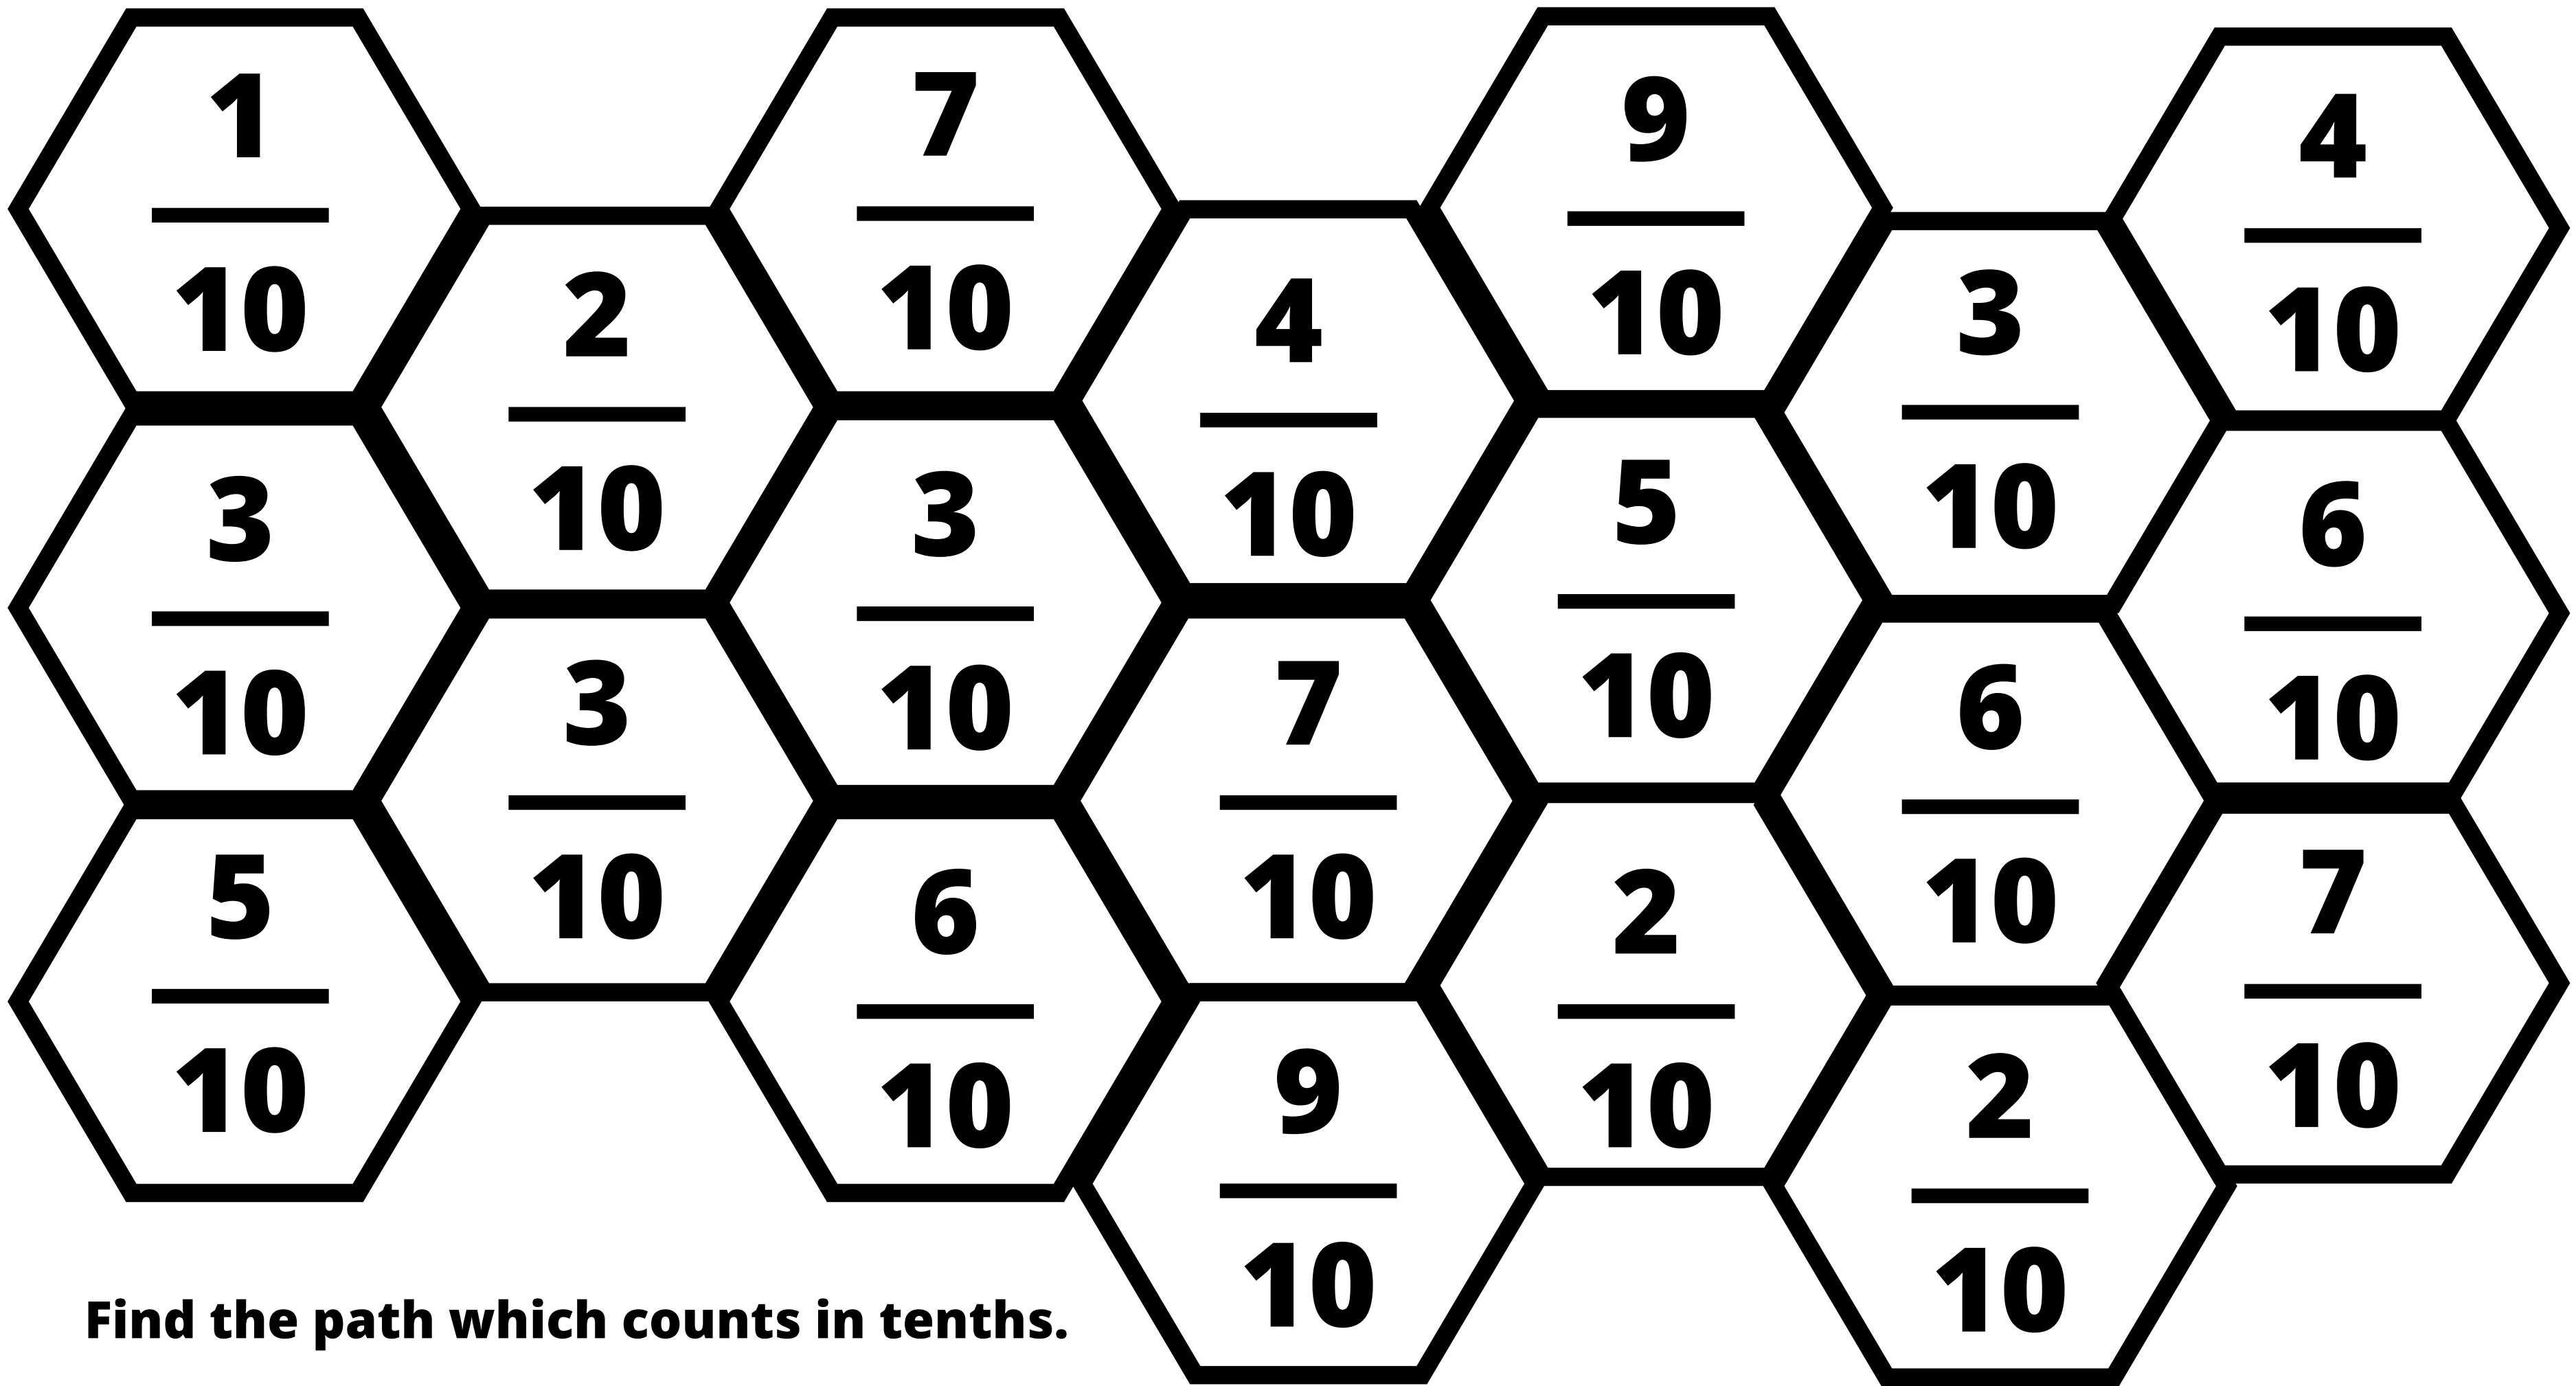

Find the path which counts in 50s

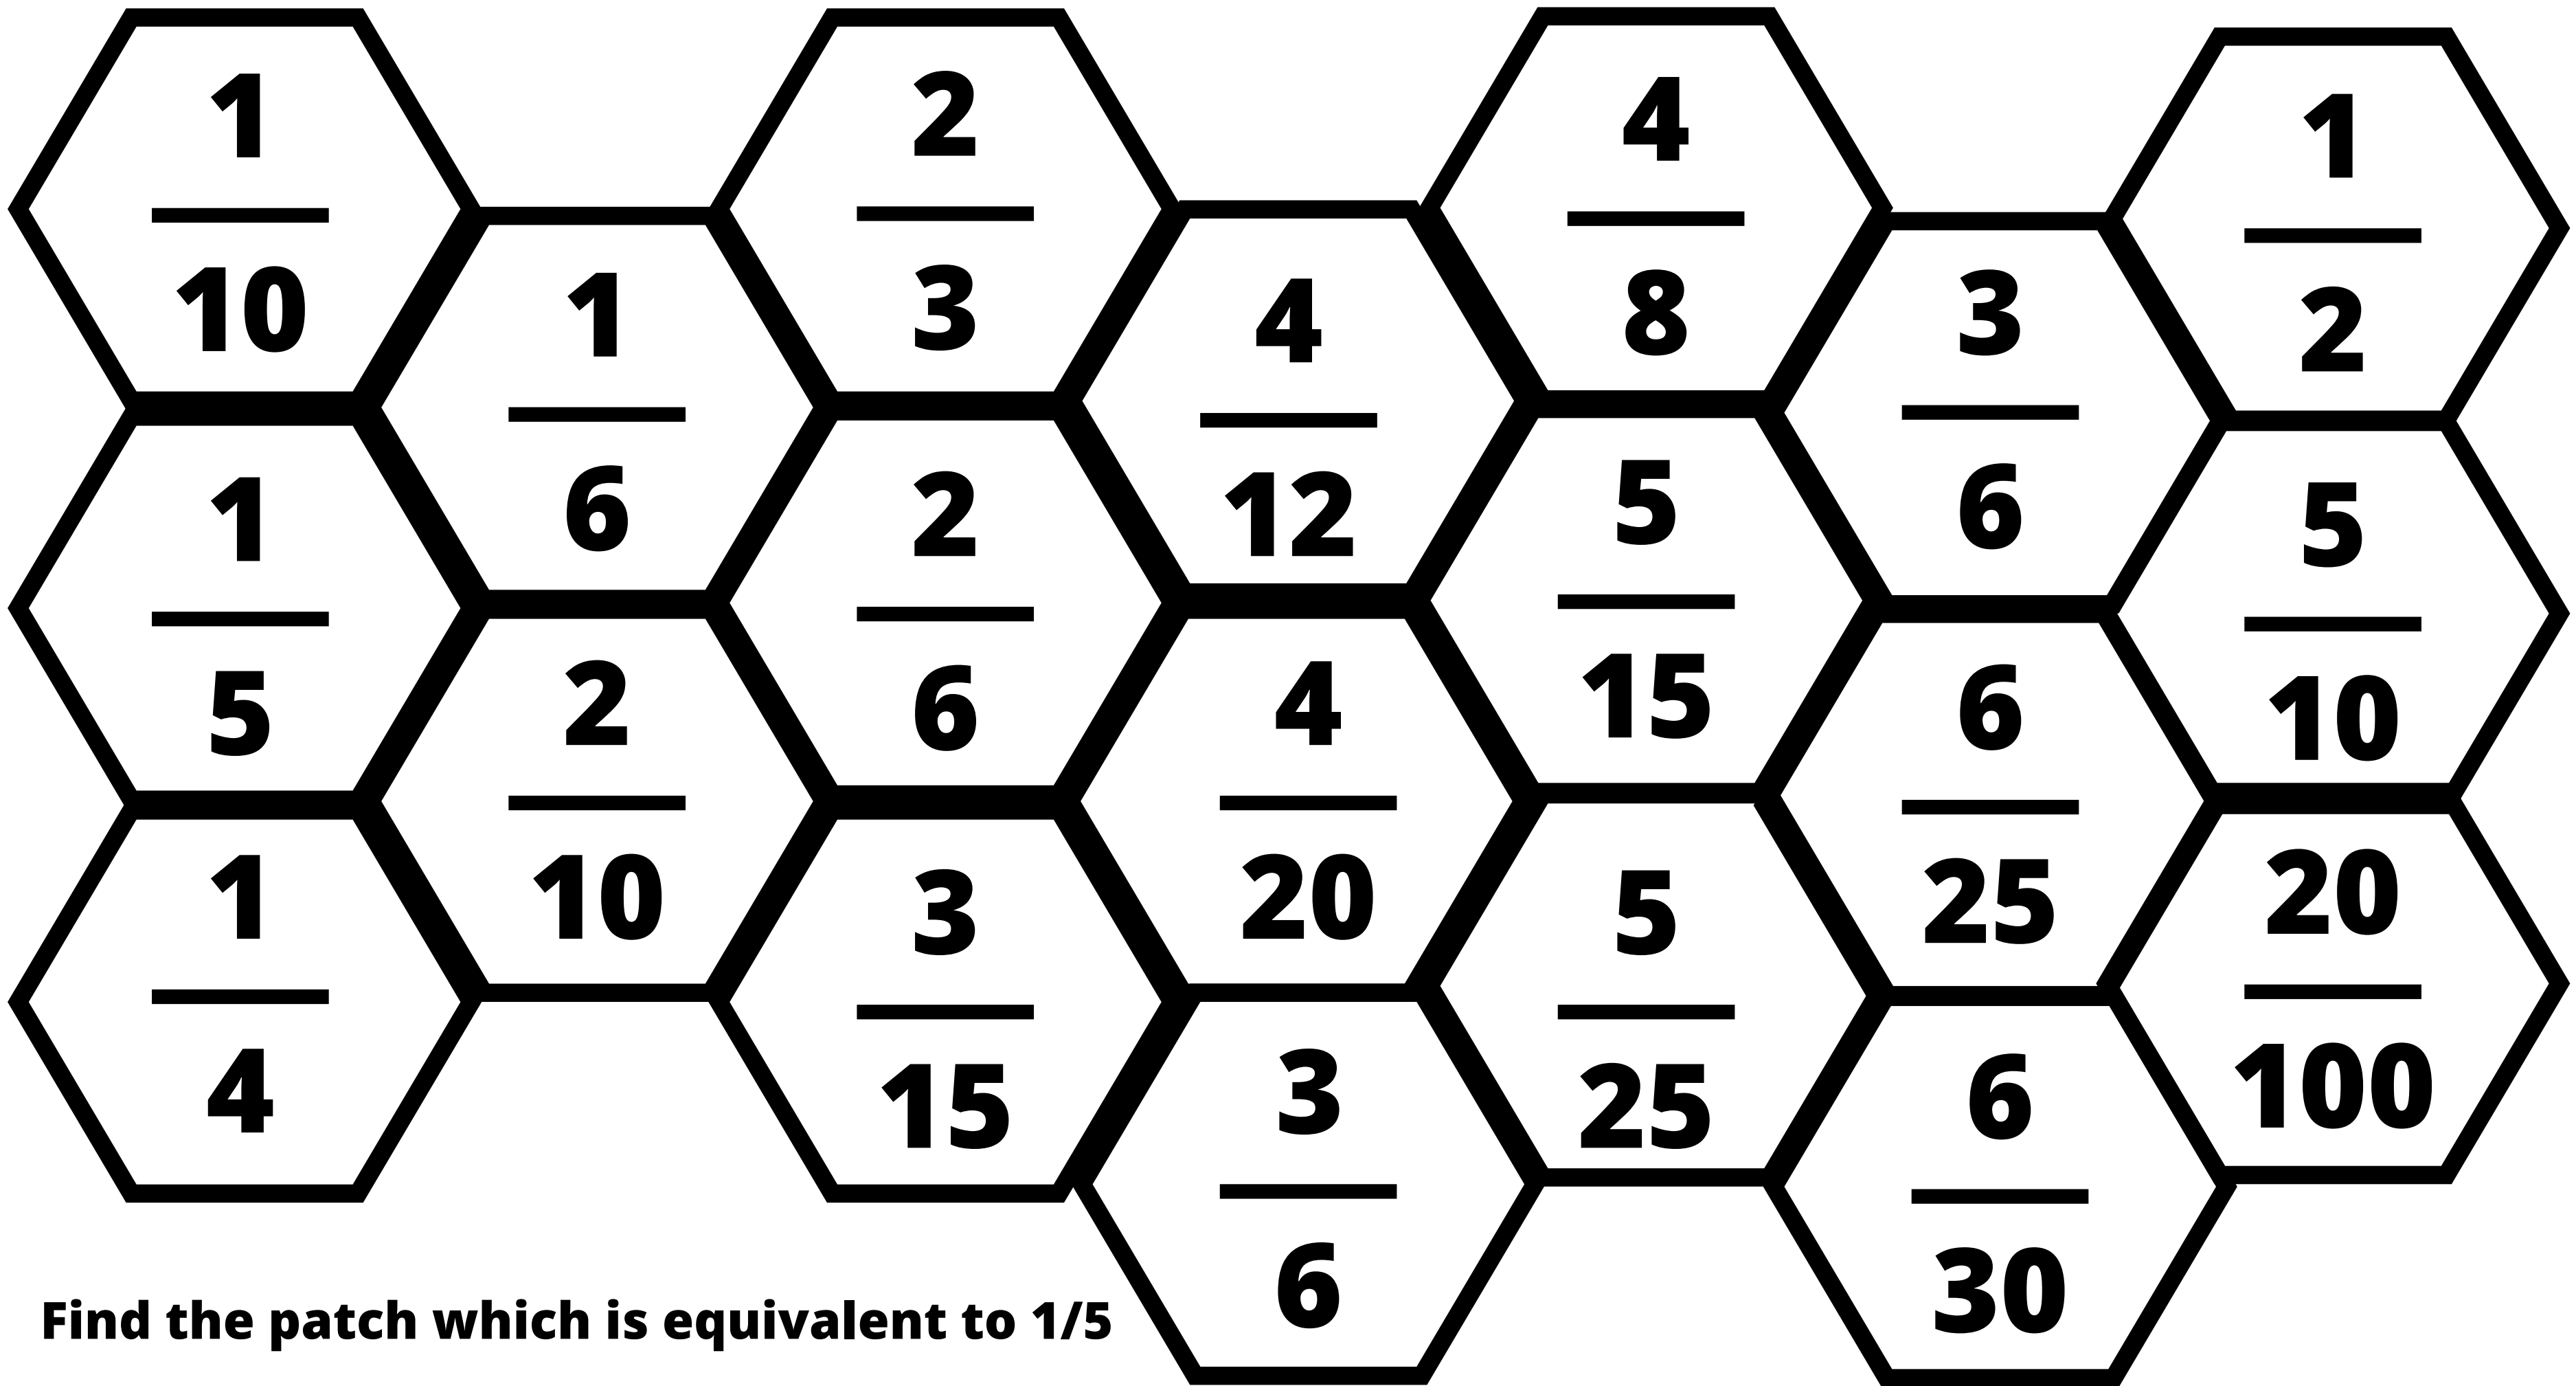

Find the path which adds 10.

Find the path which shows even amounts

Find the path which counts in tenths.

Find the patch which is equivalent to $1/5$
