

BlockBUZZters

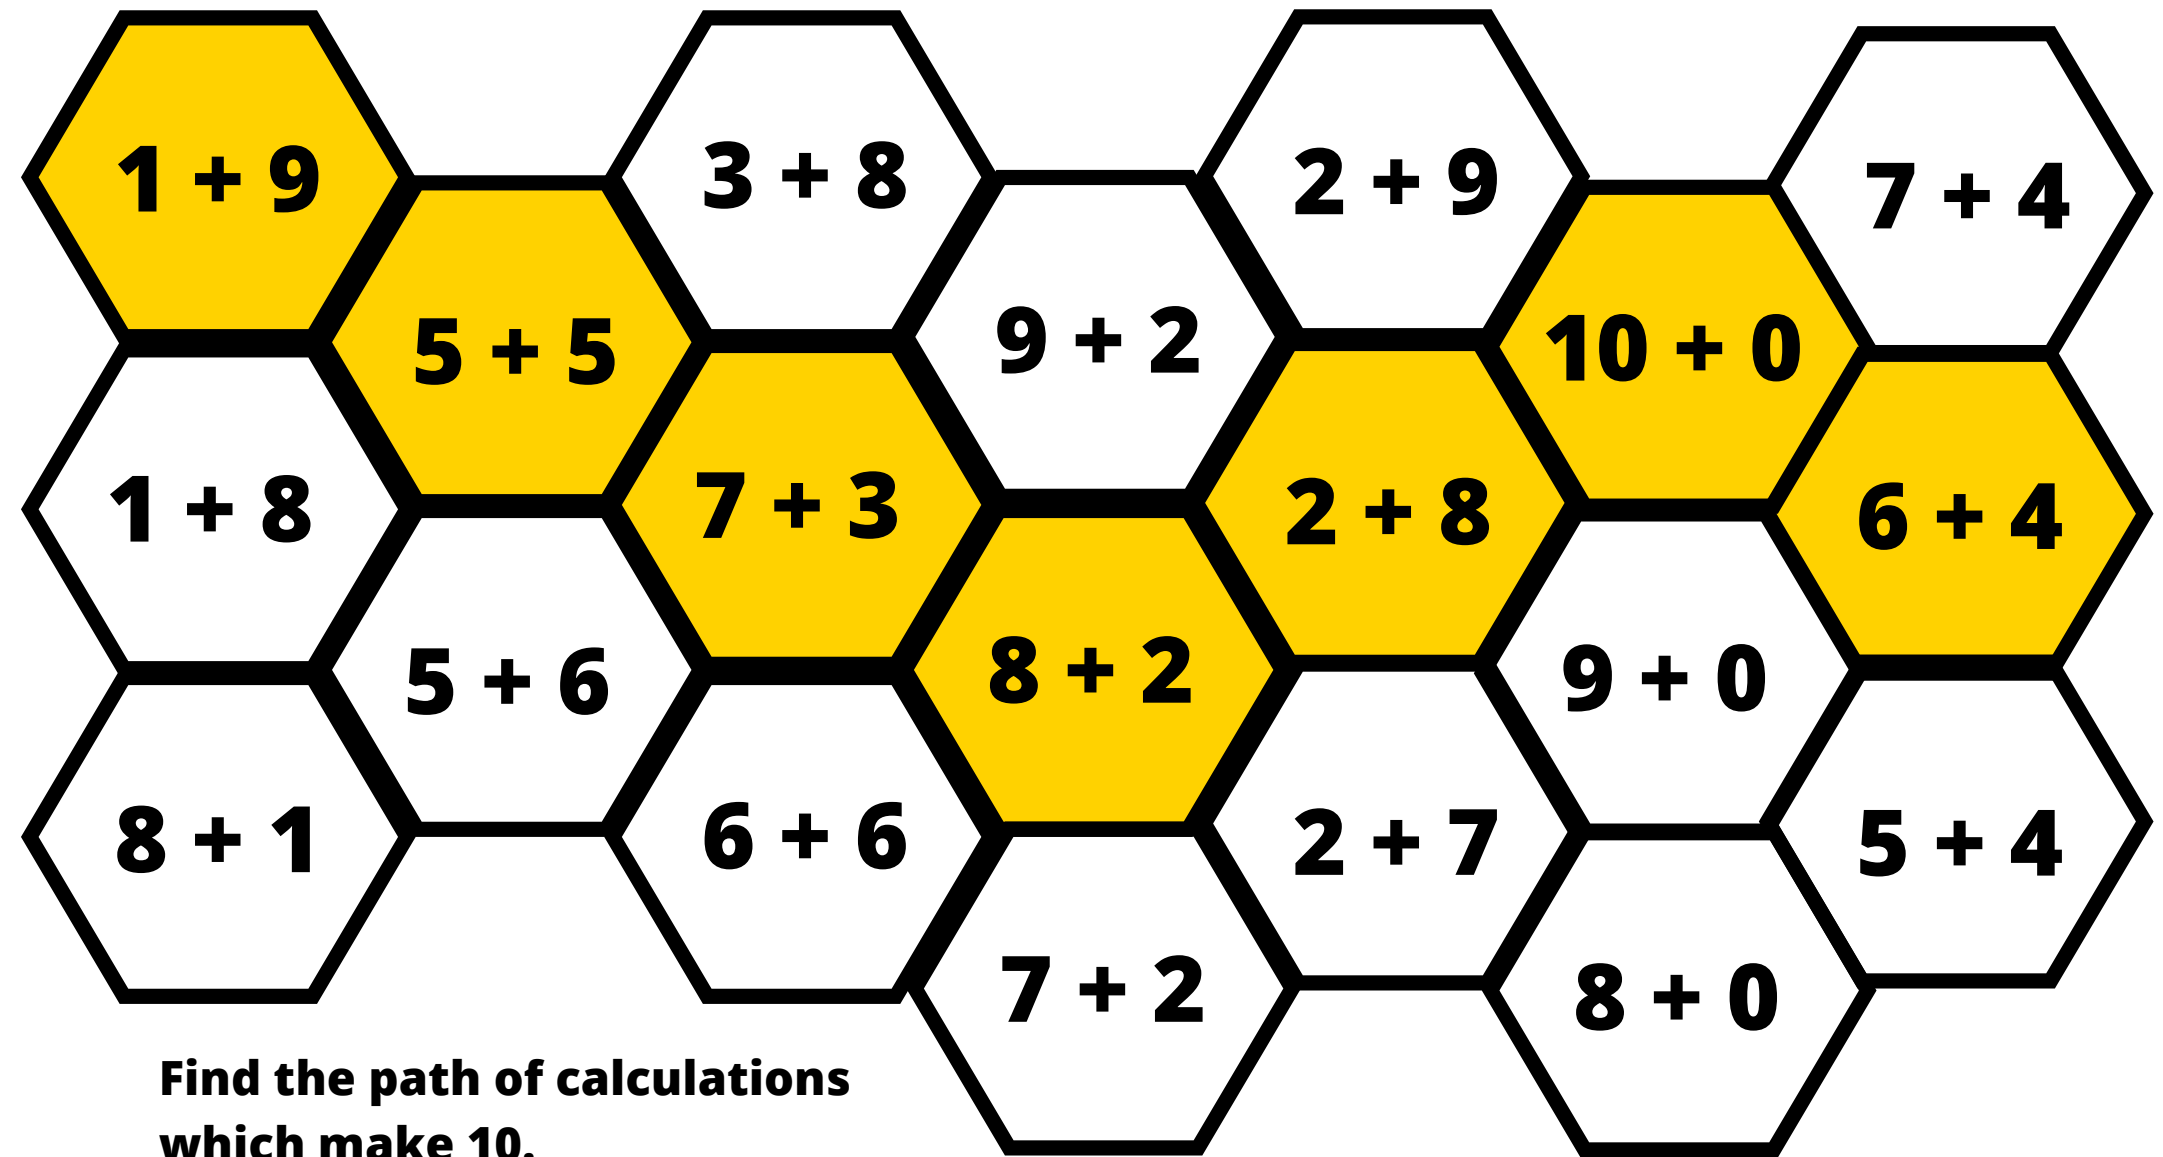

Year 6

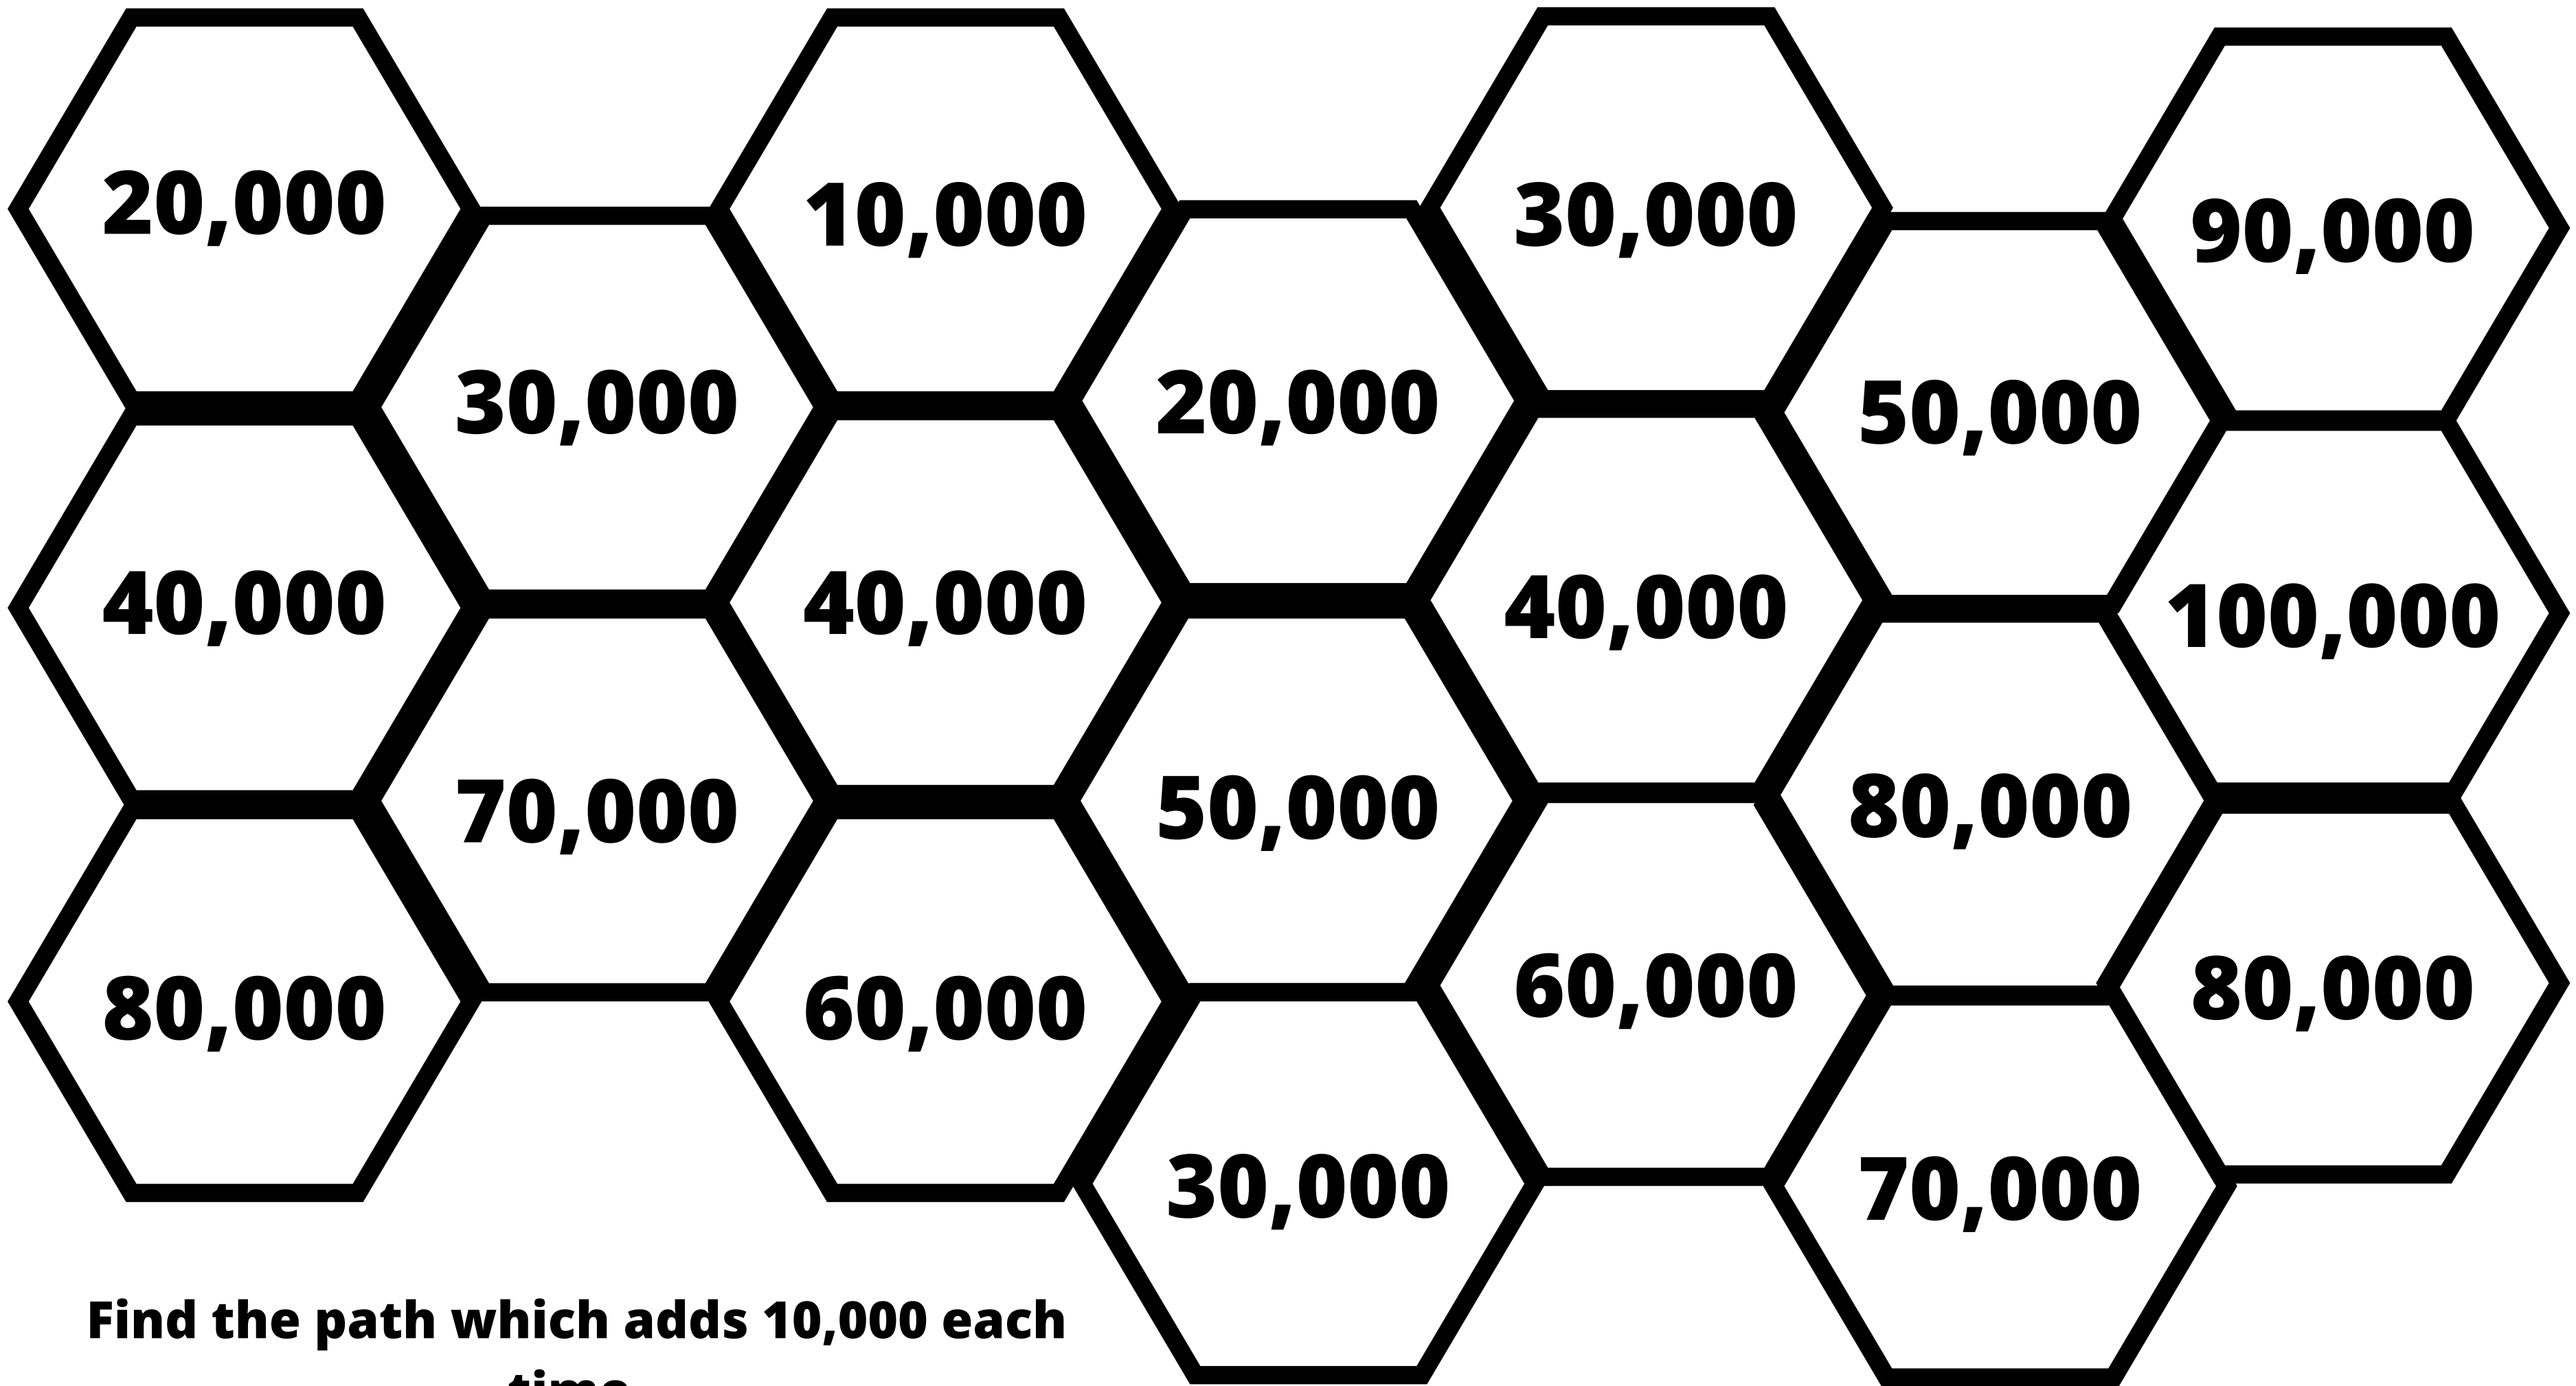

How to play.

- Display or print off the resource.
- Look at the focus of the task at the bottom left of the page (or obscure it for extra challenge, asking children to identify what the focus may be).
- Find an unbreakable path, from left to right, to complete the game.
- Colour in the path.

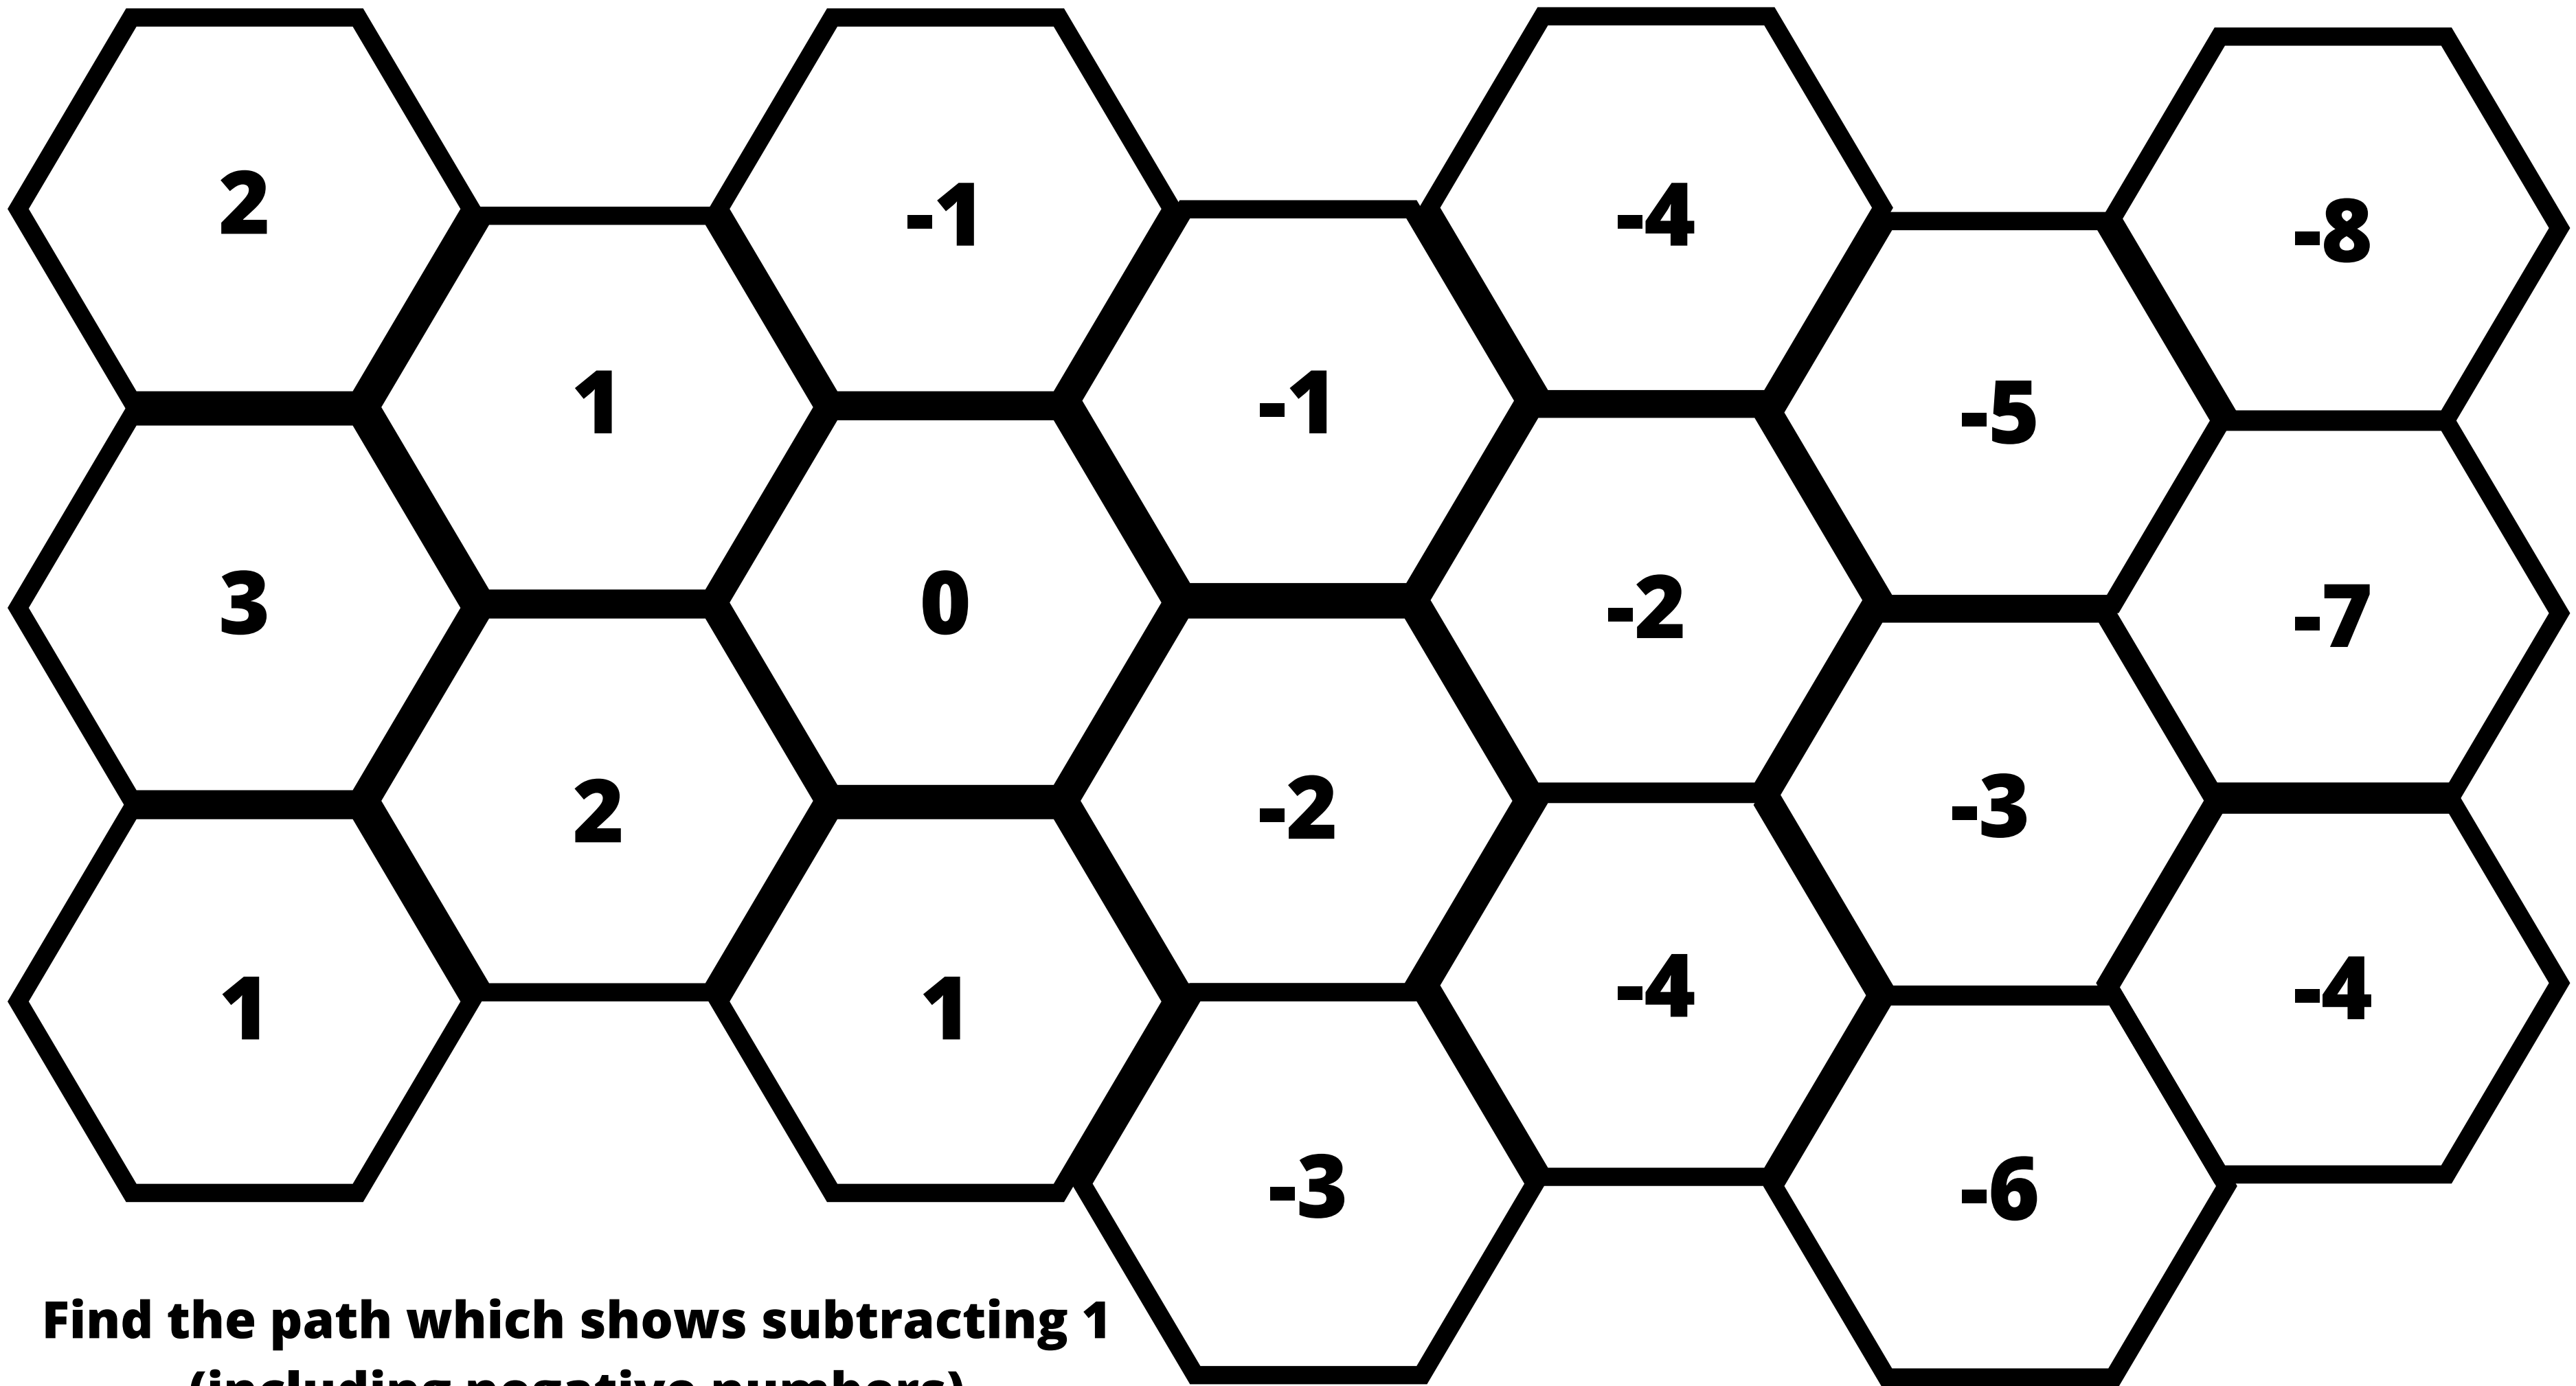

Modifications.

- Time/race children.
- Cut it out and reassemble.
- Hide the focus and allow children to try and investigate what the focus of the task is.
- Stick to another (blank) sheet and extend the grid.
- Play in pairs and create colourful paths.

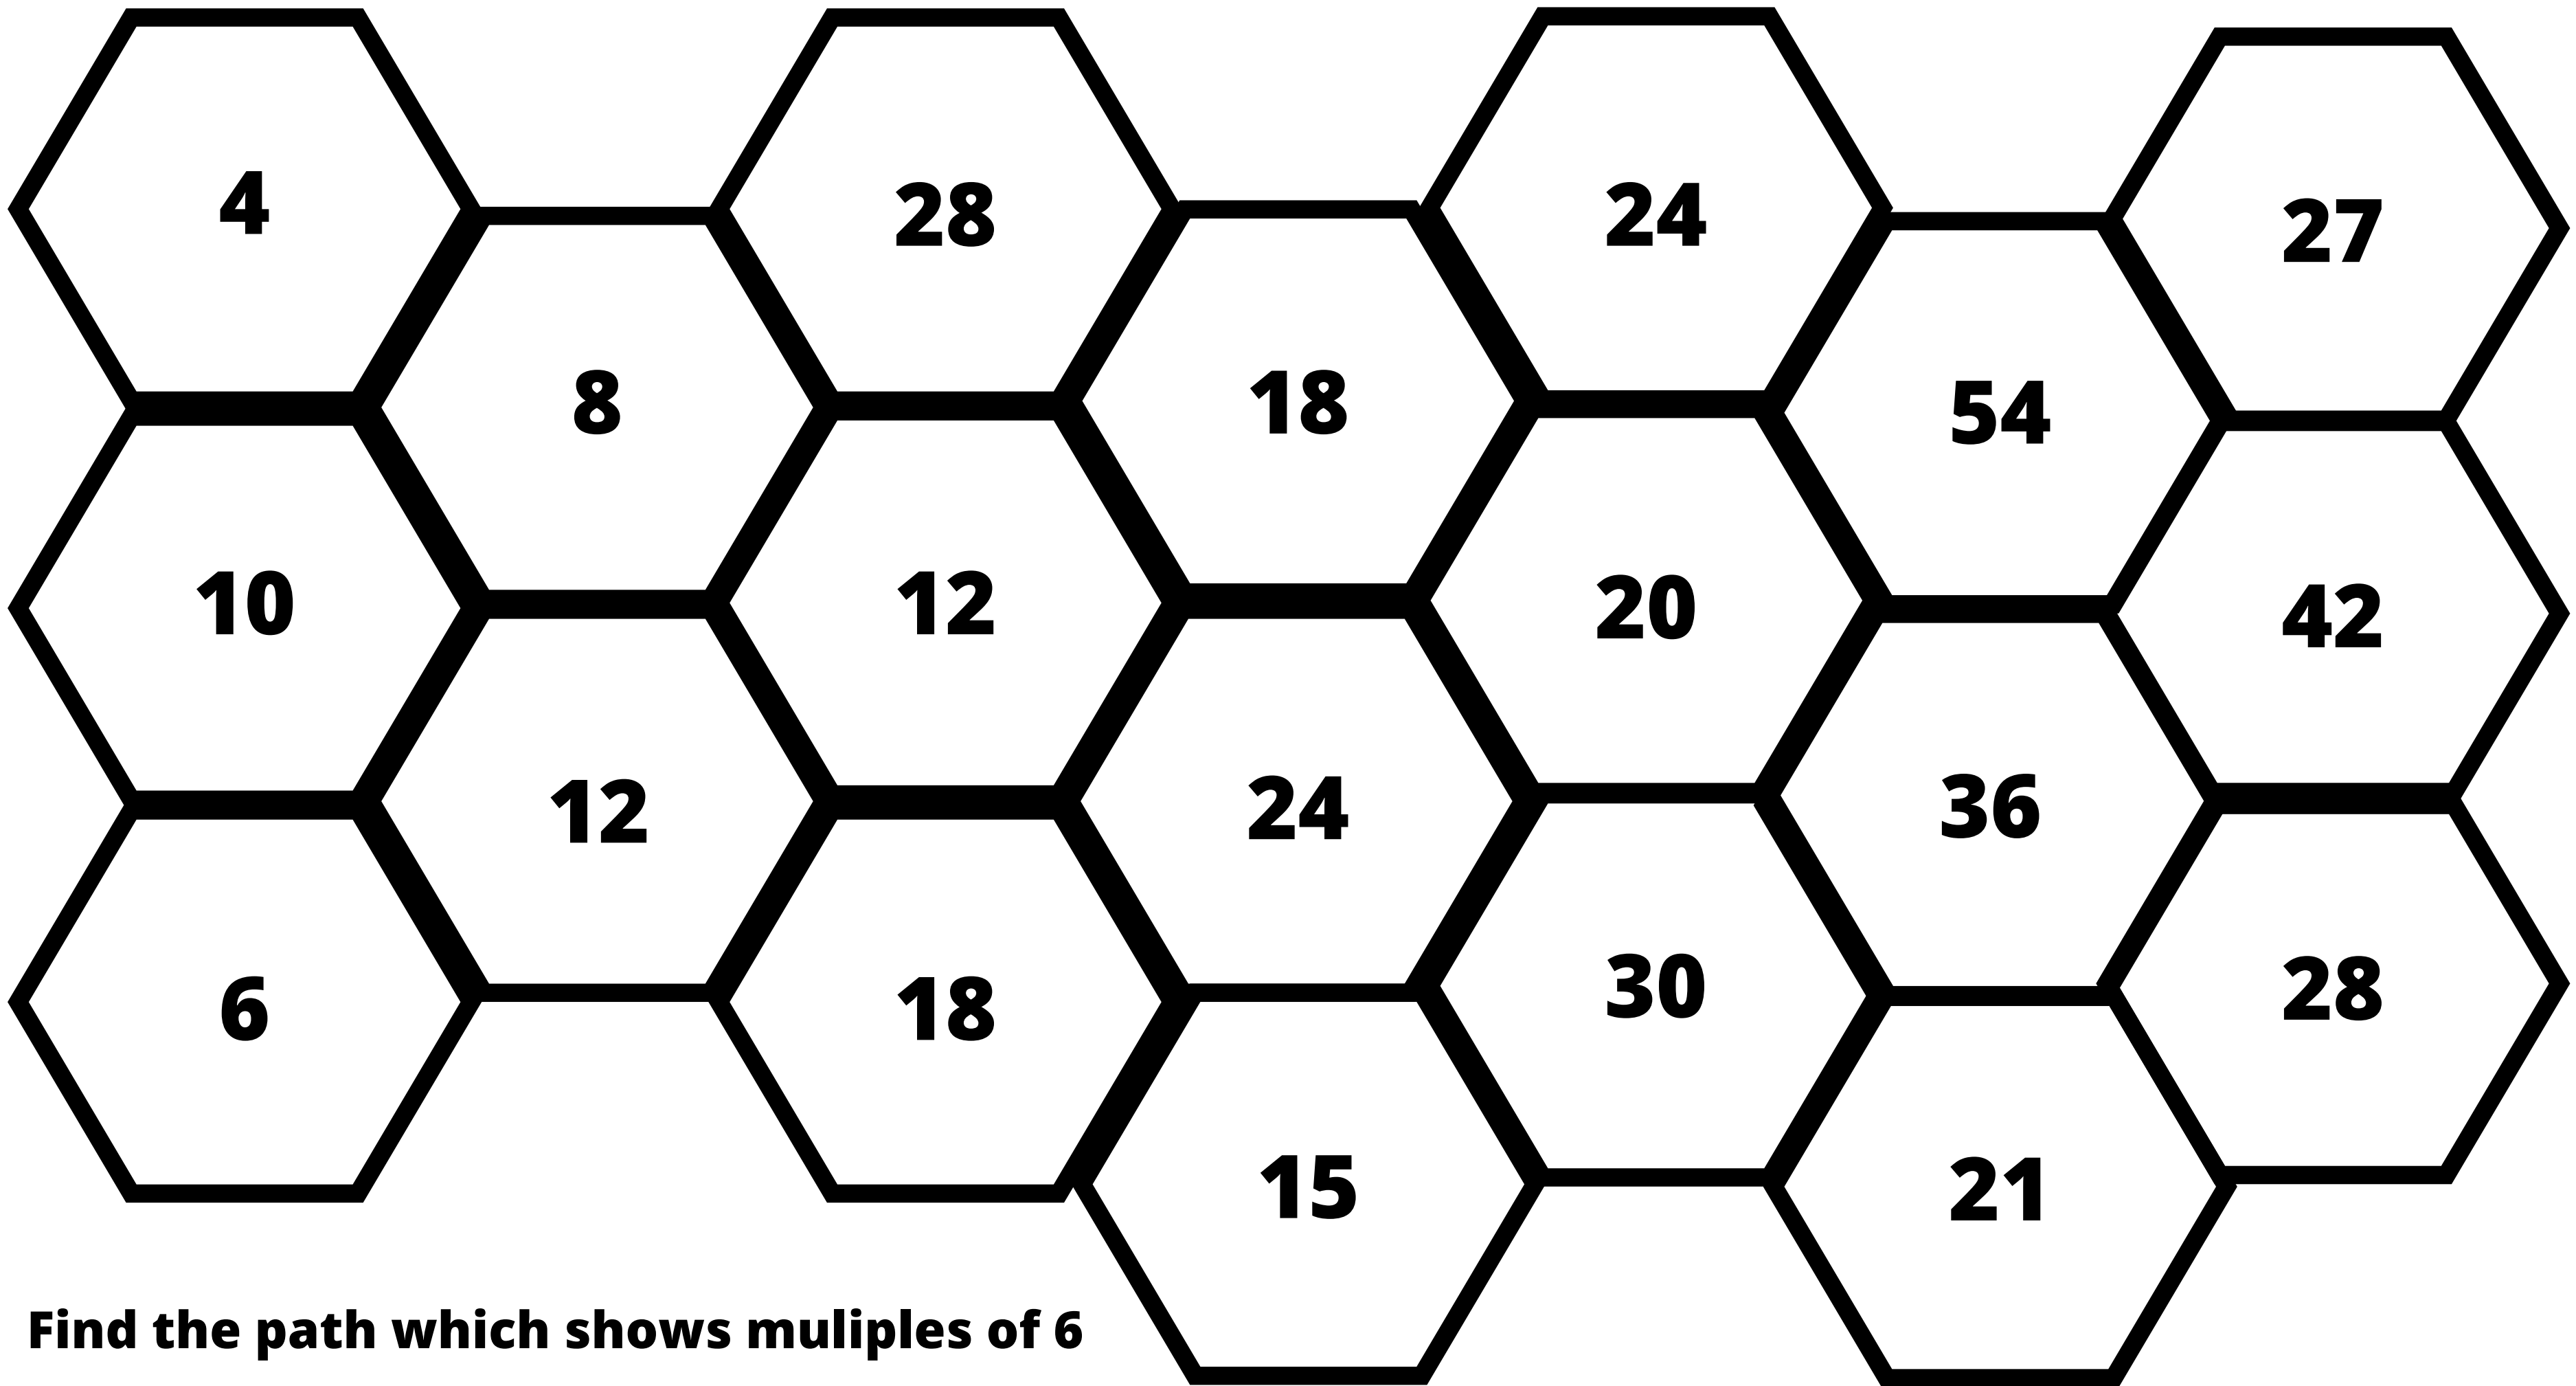

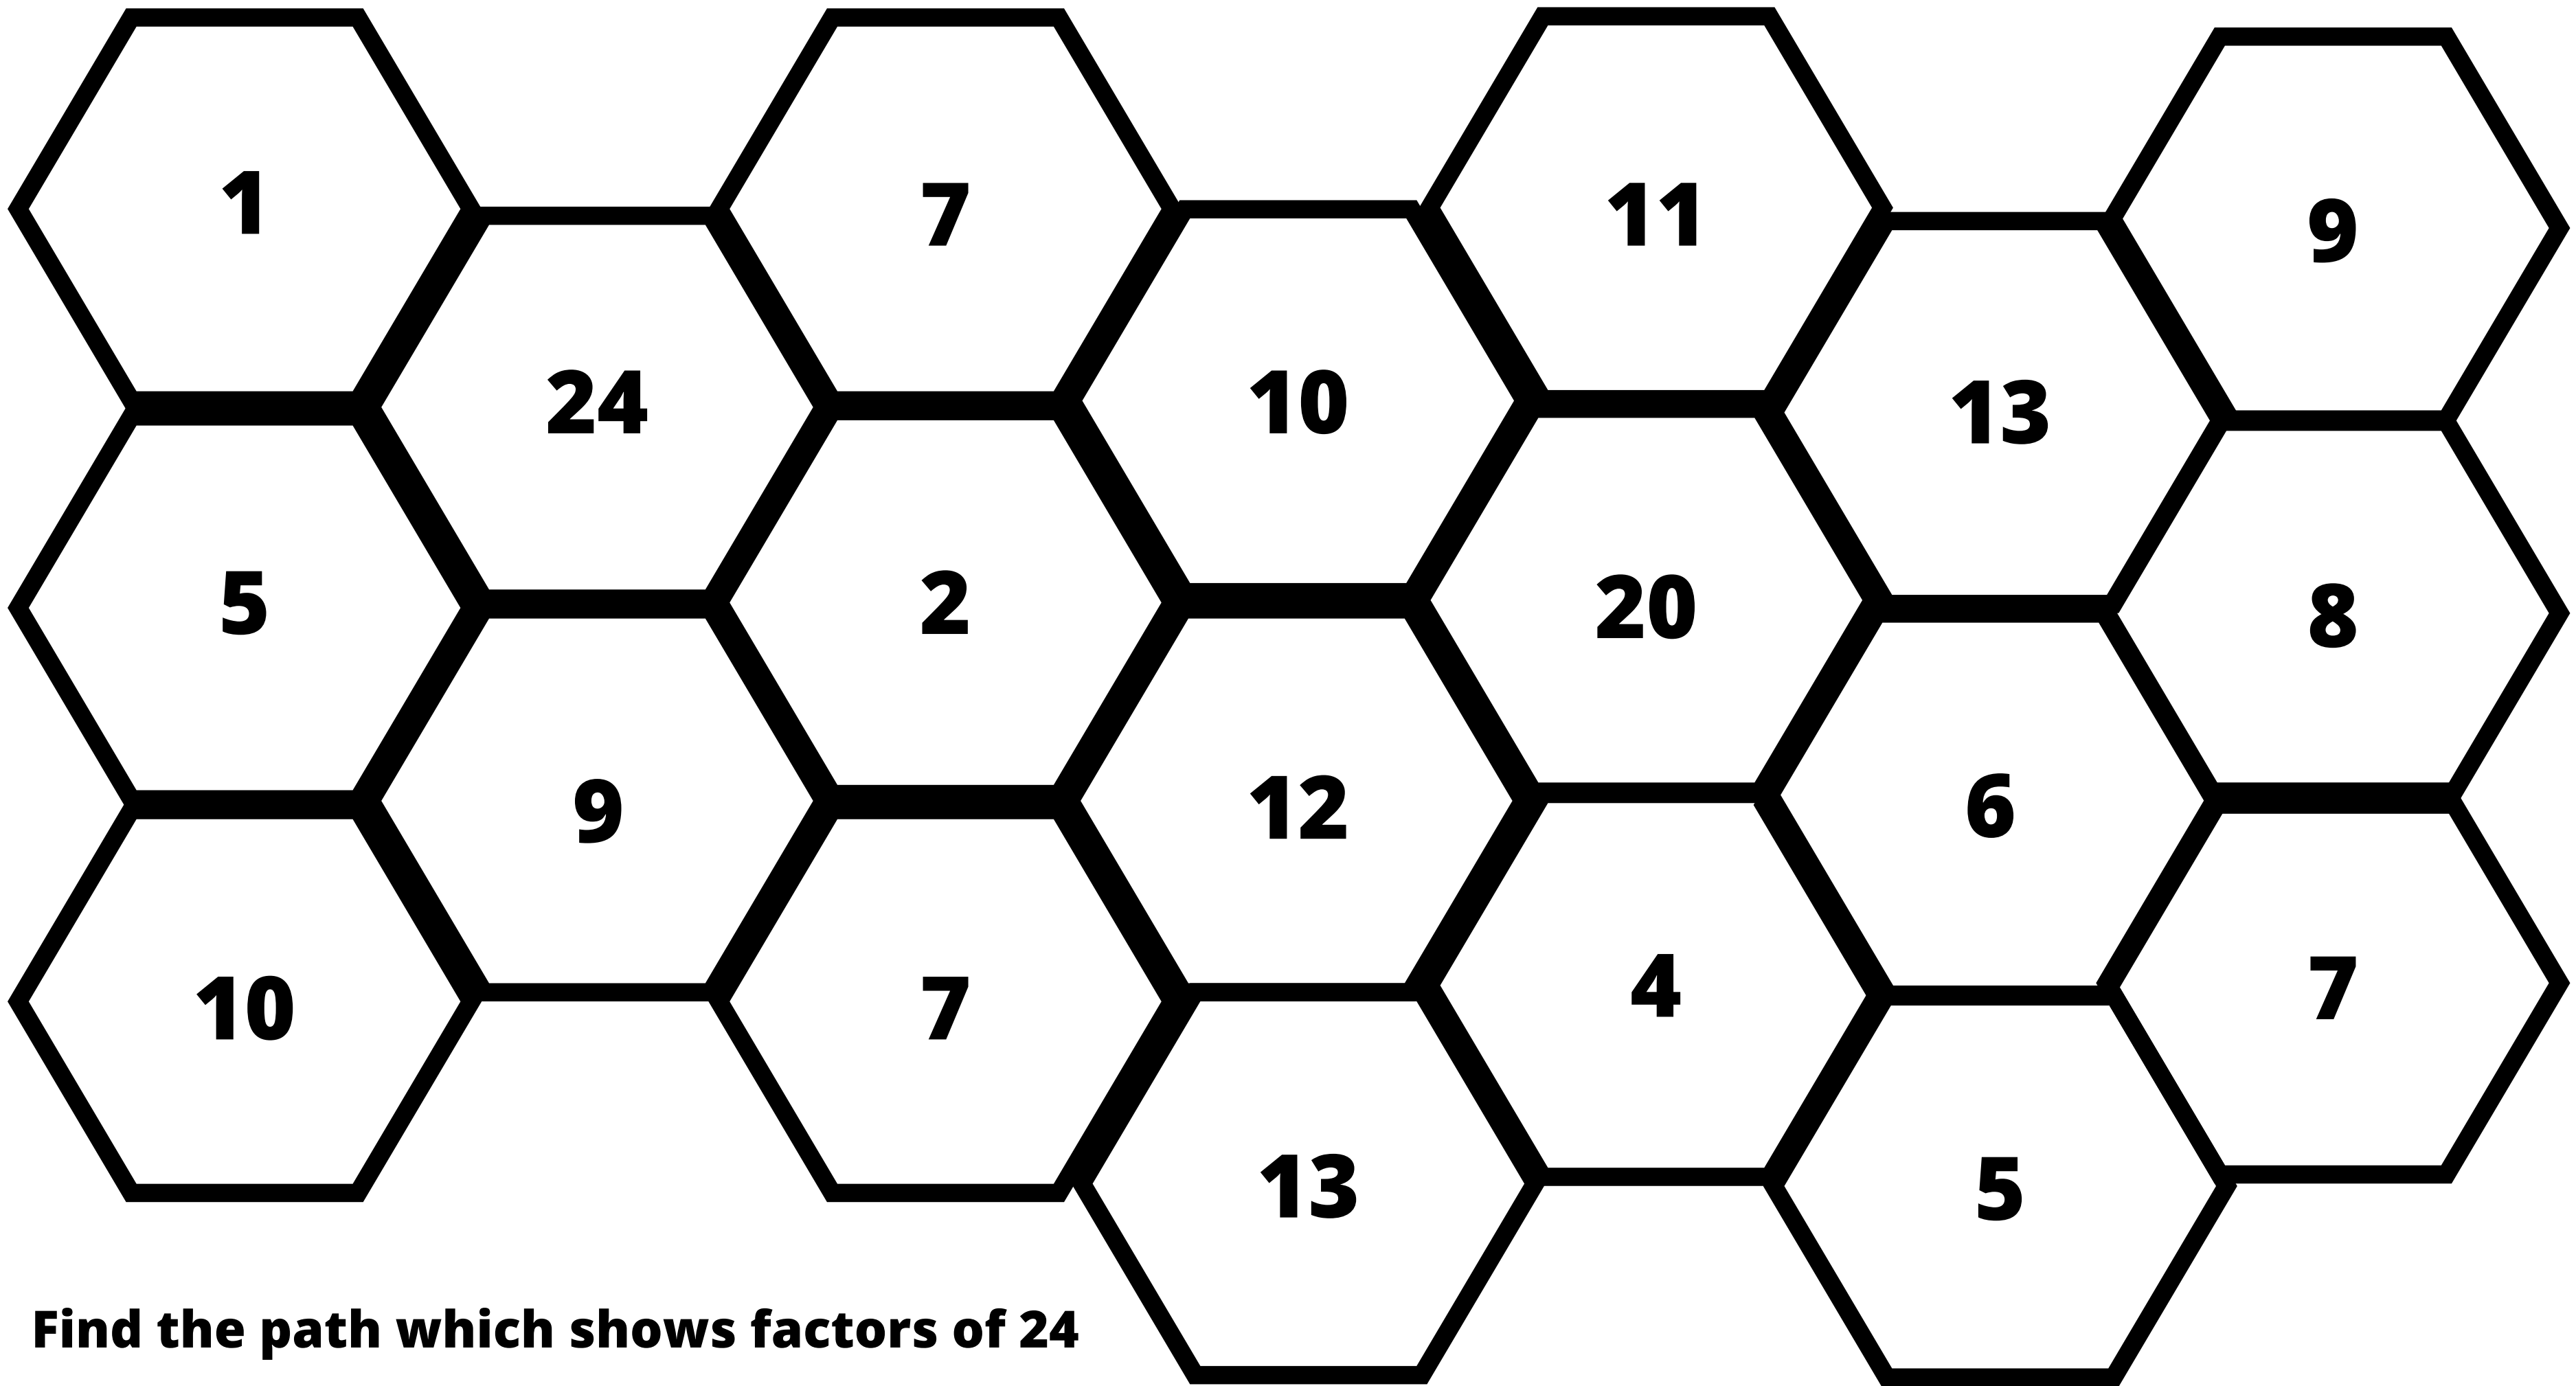

Find the path which adds 10,000 each time.

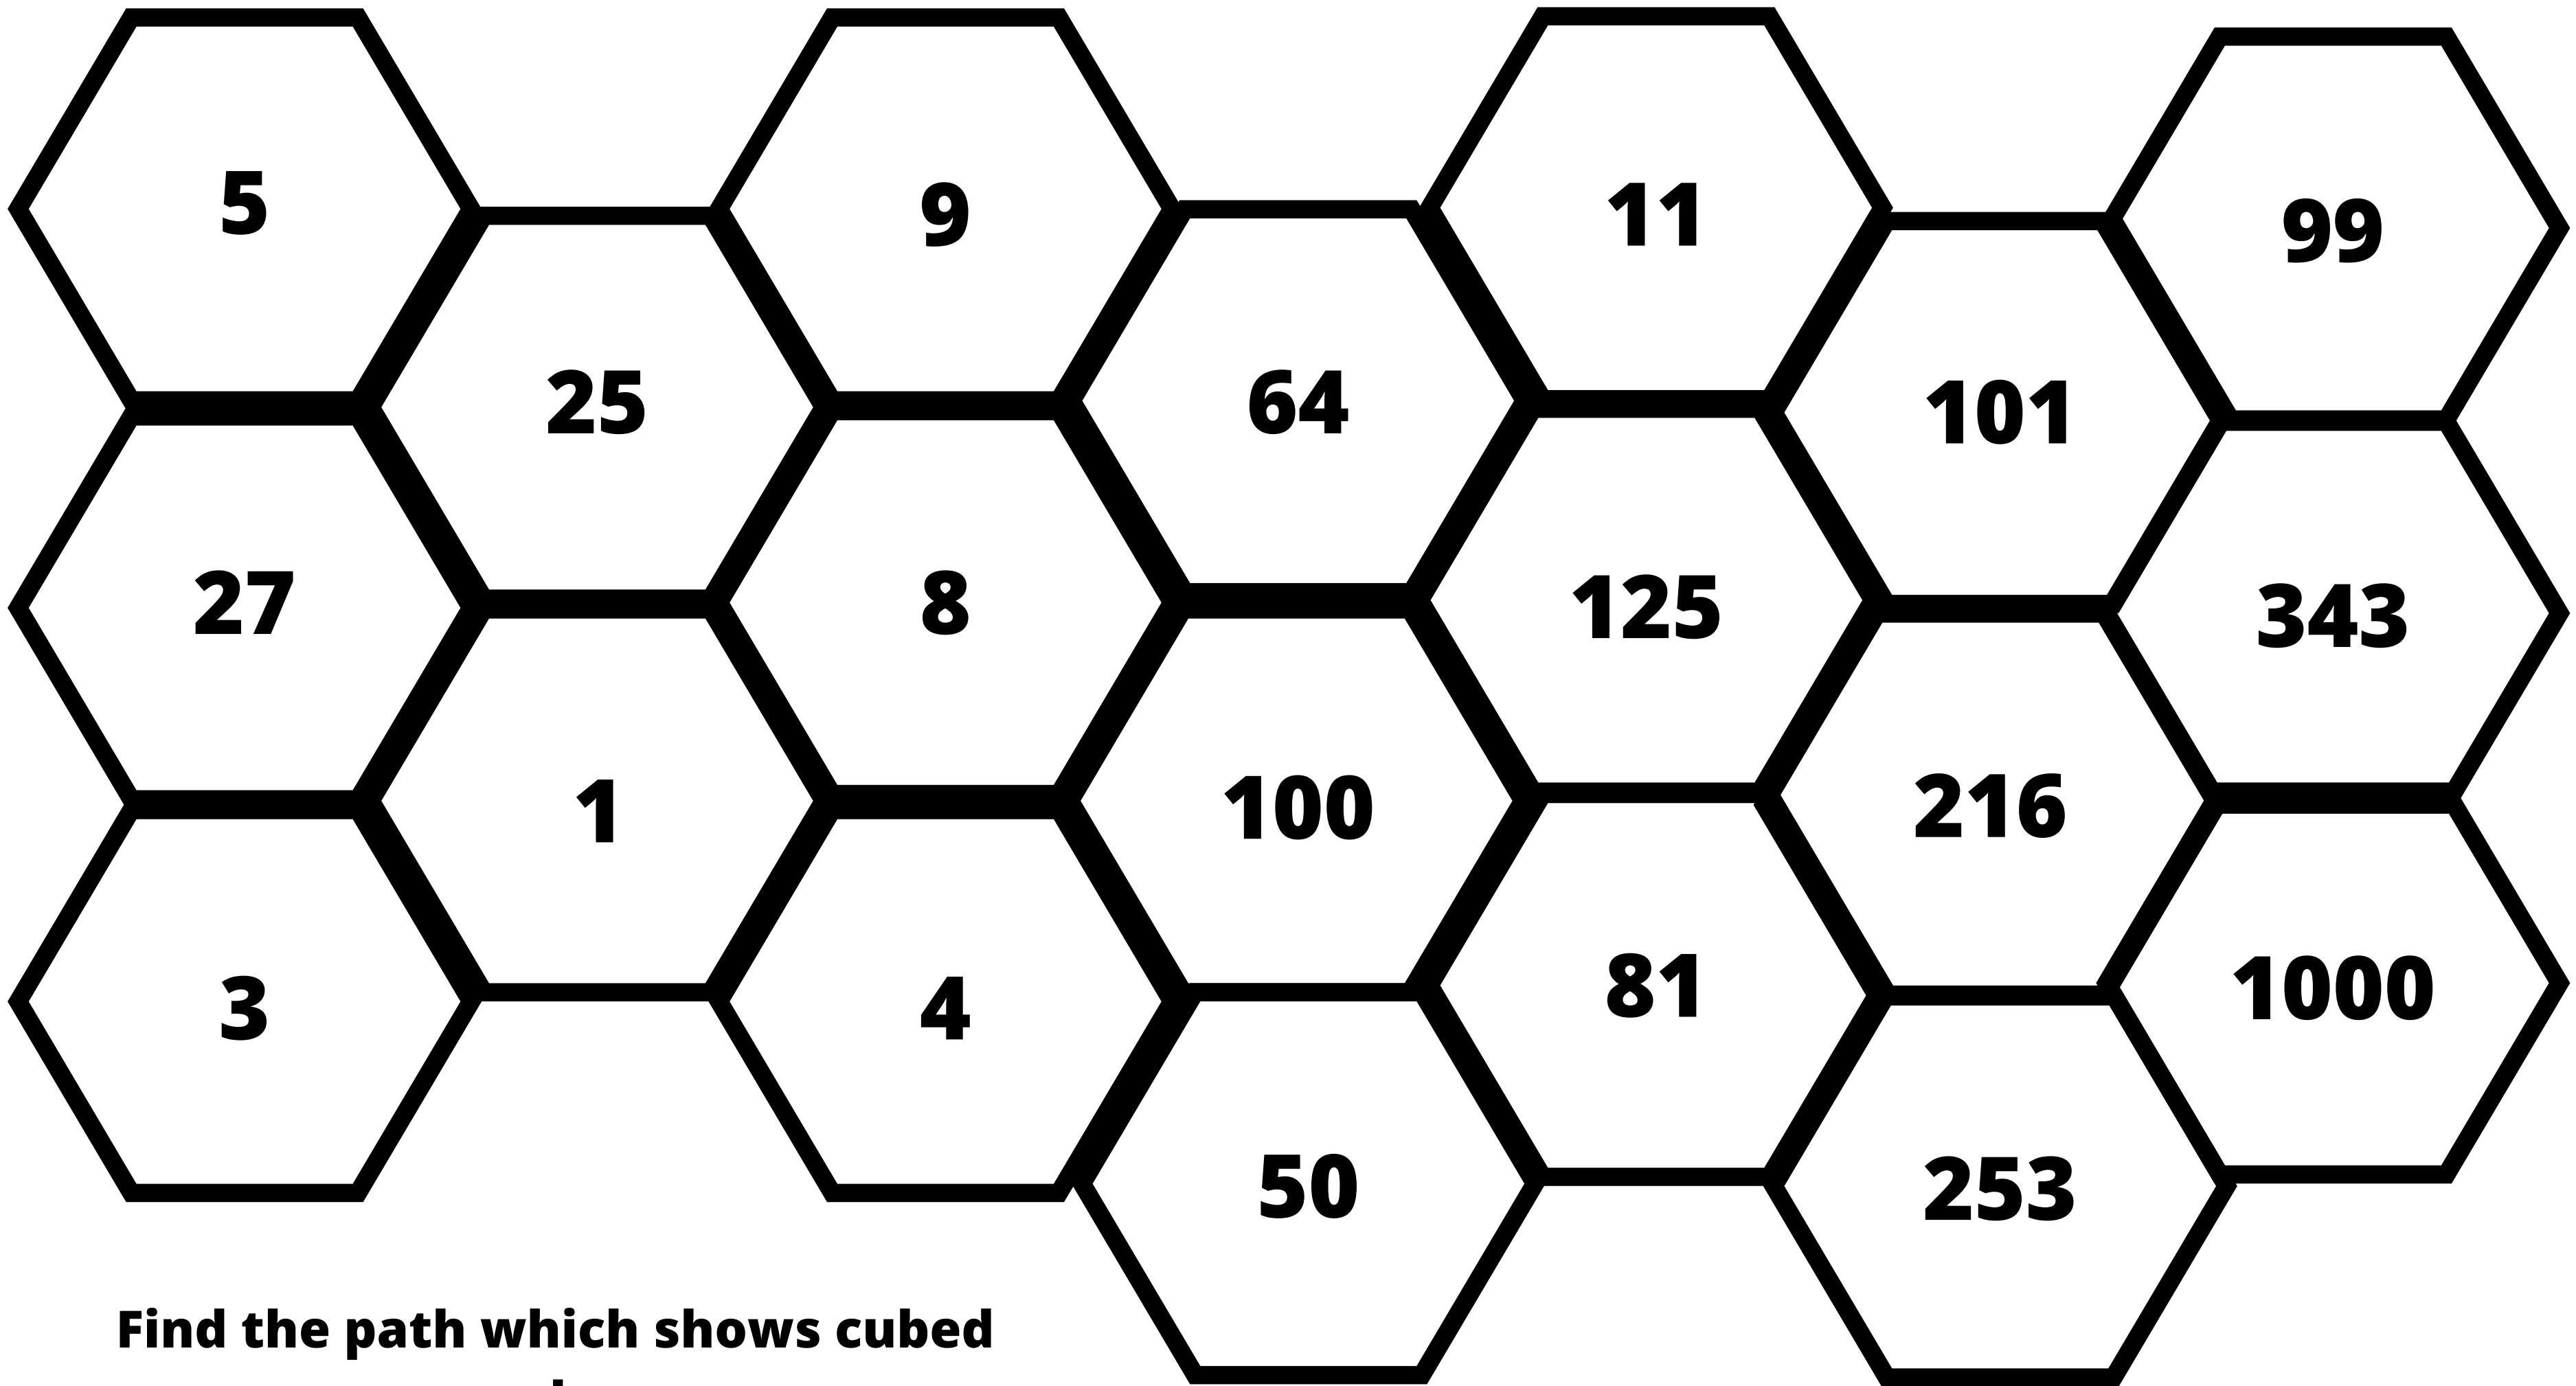

**Find the path which shows subtracting 1
(including negative numbers)**

Find the path which shows multiples of 6

Find the path which shows factors of 24

Find the path which shows cubed numbers.
